WELCOME

FROM SALES MANAGEMENT Welcome to the 11th Annual Anderson Cattle Bull Sale that features an impressive set of bulls from a highly respected program. The Anderson family is synonymous with quality genetics and are highly respected in the cattle community as they are regarded as some of the best stockman in the industry. When investing in an Anderson bull, you are not only purchasing high quality genetics but also acquiring a herd sire from a hard-working family that is dedicated to the agriculture industry. They are highly respected for their cattle knowledge and have built a program that have some of the most impressive cows within it that are beautiful in their design.

This set of Angus cows is impressive when touring through the Anderson program in the summer time as udder quality, production value and maternal strength is of the utmost importance. The age-advantage two year olds are an impressive group that are designed to cover more acres and we know you can dive into that group with confidence. The yearling pen is a standout set of yearlings and best set they have ever offered to date. Geoff and Lacey made a trip to the US to tour bull studs and source new genetics and it truly paid off as many new pedigrees are represented. The completeness and amount of options is truly deep for cattleman looking for a herd sire to elevate their program.

This set of bulls are truly sure to impress and are stacked with quality throughout and don't overlook the quality set of commercial heifers also on offer. We hope you can join us at Johnstone's on March 27 for a great set of Angus cattle and top notch hospitality but if you can't attend, feel free to contact any of the staff to represent your needs in a professional manner. The amount of repeat buyers at this sale is impressive and when you're buying from the Anderson program you are getting more than impressive genetics, you are buying from a family program that stands behind their program 100%.

BOHRSON MARKETING SERVICES LTD. | WWW.BOHRSON.COM

FROM ANDERSON CATTLE Welcome to our 11th Anderson Cattle Bull sale. Thank you for taking the time to read through our catalogue and showing interest in our program.

We are very excited about this years offering. The yearling group is one of the strongest groups we have ever had and the 2 year old group is a strong, solid set of bulls ready to cover big numbers of females. We have a few new sire groups this year, Musgrave Equity is our new walking bull that will play a big role in the future of our program. Paintrock Trapper, Sydgen Enhance and Bub's Southern Charm were added to the AI program after a trip to Billings through the AI studs there. Density, Stone, Colossal and Glory, our walking bulls, all have high quality sons in the sale. All of the walking bulls are highly maternal and we have some awesome young cows out of each of these bulls. Our cow herd gets better and more consistent each year. They are low maintenance, easy doing, good uddered, highly maternal cows that we enjoy looking at every day.

Our whole program is geared towards raising bulls that will work for the commercial cow calf producer. We don't breed for extremes, we want cattle that are balanced in every trait, are problem free, efficient and can raise profitable, predictable progeny. These bulls are built for the long haul and haven't been pushed. Prior to weaning, the bulls are raised on grass and milk. Nobody enjoys dealing with problem cattle. We try to eliminate every problem we can, whether it be culling a poor cow, poor structure or performance, or too much birth weight. We don't usually have many high birth weight calves in a year, and you will notice we don't have many high birth weight bulls in the sale, those bull have been to their sale already. If a problem does ever arise, we stand behind these bulls and do everything we can to fix it. We will again be offering our warranty program. This is a user friendly option for additional protection on your investment. We don't anticipate problems with these bulls, but they are cattle, and if you do have a problem, we want to be the first to know.

We are proud of every bull we sell, and try to do anything we can to help add value to the progeny of our bulls and to your program. We love working with our commercial customers, and will hold our 5th Annual Customer Appreciation Bred heifer sale the fall of 2021. This sale is open to any one of our customers working to market bred heifers. The quality in the 2020 sale was second to none and the most impressive group to date. We have a group of commercial replacement heifers selling again this year from Bartel Cattle Corp, these heifers will make exceptional replacement females.

We would again like to thank everyone that has supported and shown interest in our program over the last 11 years. Its defiantly been a different kind of year but we are very lucky to involved in Agriculture, where lots of the days aren't really any different, and there has been a new appreciation for where food comes from. If you have any questions please call or stop by the farm, we look forward to visiting with you.

Colossal 9086 is a great way to start off the year's offering. He is a big bodied, deep, soggy bull with a good look. 9086 will be the last bull to sell out of the Limestone Pride T906. Pride was moderate framed, easy doing, big ribbed female that produced 6 sale bulls in her time with many of them being highlights of their respective sales. 9086 is a bull that will calve easy, produce easy doing, low maintenance cattle that will be highly maternal and have a ton of longevity bred into them.

Colossal 9147 is one of the most maternally charged bulls in the entire sale. With Colossal, Natural Law and Motive in his pedigree this is a bull I would bet on being a definite udder improver. His grand dam, Blackwood 1150, is one of the for sure favorites in the cow herd, and still looks awesome at 10 years of age. We flushed 1150 to Natural Law and have a tremendous set of daughters including 9147's dam. This bull isn't just maternal he is one of the longest, heaviest and best looking bulls in the 2 year old group.

We are starting this year's yearling division with a tremendous group of 9 Renown sons. 0052 is as interesting on paper as he is in the flesh. His Leachman Right Time dam is an awesome cow that came from the Bandura program through the Angus Collection. She is everything you would expect from a direct Right Time daughter, she's big bodied, long, stout, tanky and good uddered. She was flushed to Pay Weight 1682 and two of our favourite 2 year old females we have are a result of that flush. Renown / Motive combo is definitely a mating that has worked well. One of the top heifers in the replacement pen is a Renown / Motive mating and looks to have all the makings of a future donor cow. 0058 is another bull that will have the ability to put more pounds on his steer calves and leave a beautiful set of daughters.

PAINTROCK TRAPPER

2065428 - IMP 1815C - FEBRUARY 07 2015

Paintrock Trapper is a bull we saw at Genex in Billings. A total outcross bull that has an awesome foot, length of body, and a great look. He worked extremely well for us leaving a powerful group of bulls and some easy doing, tanky females that look like they will make great cows. 5 sons of Trapper sell.

0054 is the first Paintrock Trapper bull on offer. Trapper 0054 is one of the very best bulls we have ever raised. He is long, stout, big topped, hairy, nice necked, and good looking. His dam, Ruby 1436, is another favorite cow, she is perfect uddered, angular, deep, square and is everything an Angus female should be. She has been a great producer both with her natural calves and her embryo transfer calves. She is also the grand dam to Lot 32 Equity son. A definite pen favourite from one of the top cows in the herd.
