WELCOME

FROM SALES MANAGEMENT On behalf of Geoff, Lacey and the entire Anderson family, we welcome you to the 10th Annual Bull Sale. There are a lot of options on where to source your next bull, but this is a program that you can surely invest with confidence as their cattle are strong and the people behind them are even better. The power of the mighty Angus female is the backbone of the livestock industry and some of the very best production cows in the breed are right here at Anderson Cattle. The cow power is evident with a strong and consistent herd of females in their program that are strong uddered, sure footed, structurally sound and raise highly sought after sons and daughters. The old saying goes “a herd bull is only as good as the mother behind him” and this is a program that is maintenance free with strong cows backing them.

The 2020 offering for AC is without doubt, the strongest set to date and the depth of pedigree and overall quality is impressive. The true Angus passion and attention to detail that this program puts forward is noticeable in this deep set of Angus yearling and extra-age bulls. 19 extra-age bulls will be offered and this easy-keeping, athletic, strong pedigreed group are built to cover a few more acres and add profitability to your calf crop. Many fresh and exciting pedigrees are to be noted in the yearling section with bulls that are developed for longevity and ROI, which are the key factors to their loyal customer base that have noticed the advantages of investing in an AC bull. New to the sale this year is a select group of open commercial heifers from loyal customers that are sure to impress.

You can tell the customer satisfaction of a program with the amount of repeat customers per bull sold and this sale would have a high amount of happy, repeat customers annually that want to add AC genetics to their herds. If you are one of those repeat customers, we look forward to visiting with you on sale day OR if you are considering buying your first AC bull, invest with confidence as this is a strong program to tie into. When purchasing your next herd sire(s) in this sale, you are investing in a true breeding program that is built from the ground up with awesome females that are mated to industry-leading bulls. If you can't make it sale day, feel free to contact any of the Anderson family or sales staff but we hope you can join us on sale day to take in some outstanding hospitality and an impressive sale offering.

Best Regards,

BOHRSON MARKETING SERVICES LTD. | WWW.BOHRSON.COM

FROM ANDERSON CATTLE Welcome to the 10th Anderson Cattle bull sale. We would like to thank you for taking time to read through our catalogue and for showing interest in our program.

We are very excited about the bulls on offer. Both the 2 year old group and the yearling group are a strong solid set of bulls. Both groups have a nice blend of new and proven genetics in them. New sire groups this year include; Basin Payweight 1682, Muirhead's Density, Schiefelbein Effective, and Valley Lodge Nitro. The bulls are sound, stout, big bodied bulls that are backed by a group of good uddered, low maintenance, easy doing, highly maternal cows. Our cows were out grazing in the valley until mid December, and could have stayed out there a lot longer if they didn't have to come home to calve. Many of these bulls have calving ease bred into them, but still have enough power to be used in either the heifer or cow pasture.

Our whole program is geared towards raising bulls that will work for the commercial cow/calf producer. We don't breed for extremes, we want cattle that are balanced in every trait, are problem free, efficient, and can raise profitable, predictable progeny. There is nothing better than hearing from a bull customer that tells you his calves are better, or that he can see the improvement in his young females udders, sired by our bulls. These bulls are built for the long haul, and haven't been pushed. Prior to weaning these bulls were raised on green grass and mother's milk, without creep feed. Nobody enjoys dealing with problem cattle. We try to eliminate every problem we can, whether it be culling a poor cow, poor structure or performance, or too much birth weight. We don't usually have many high birth weight calves in a year, and you will notice we don't have many high birth weight bulls in the sale, those bulls have been to their sale already. If a problem does ever arise, we stand behind these bulls and do everything we can to fix it. We will again be offering our warranty program. This is a user friendly option for additional protection on your investment. We don't anticipate problems with these bulls, but they are cattle, and if you do have a problem, we want to be the first to know.

We are very proud of every bull we sell, and try to do anything we can to help you add value to your progeny out of our bulls. We love working with our commercial customers. We will hold our 4th annual Customer Appreciation Bred Heifer Sale, December 17th, 2020 at Johnstone Auction Mart, and invite everyone to attend, as a consignor or if you are in the market for high quality bred heifers. This sale was one of the most successful bred heifer sales of the 2019 fall sale season, and has been getting bigger and better with quality and quantity each year, and its nice to see many repeat customers returning every year to source bred heifers. We will also have a great set of open replacement heifers to sell in this years bull sale from Wes and Diana Maerz and Bartel Cattle Corp. These heifers will make exceptional replacement females, or if you like, these heifers could be bred and returned to the bred heifer sale in the fall.

We would again like to thank everyone that has supported and shown interest in our program over the last ten years, and look forward to working with you in the future. If you have any questions please call or stop by the farm. We look forward to visiting and seeing you sale day.

Geoff Anderson

ANDERSON CATTLE

GEOFF, LACEY, SEAGER & SWAYZE ANDERSON

BOX 8 BETHUNE, SK | GEOFFANDERSON1@HOTMAIL.COM

TWO YEAR OLDS

Motive & Colossal sons

1

ANDERSON MOTIVE 8006

2134117 | GEOFF 6F | JANUARY 18 2018

HF KODIAK 5R | R B TOUR OF DUTY 177
SOO LINE MOTIVE 9016 | ANDERSON MIA 6037
TLA BEAUTY 5R | MIA OF RING CREEK 22W

Act. BW	Adj. WW	CANADIAN ANGUS ASSOCIATION EPD'S							
BW	WW	BW	WW	YW	Milk	TM	SC	CE	MCE
75	666	1.7	53	94	27	53	-	4.5	3.5

8006 is the only direct Motive son in this years sale. Motive is a bull that needs no introduction and has been a huge part of building our cow herd, and siring many bulls that have gone through this sale. 8006 is truly a unique individual. He is a moderate framed, huge ribbed, big topped, stout bull in a calving ease package. A bull that will sire cattle that will perform well in all conditions, whether you want to raise females that will be able to graze year round or put steers into the feedlot that will be efficient and convert extremely well.

2

ANDERSON COLOSSAL 8127

2134121 | GEOFF 127F | APRIL 06 2018

S A V INTERNATIONAL 2020 F | WILBAR EASTWOOD 200X
GREENWOOD COLOSSAL JJP 28C | ANDERSON ERICA 1220

BW	WW	BW	WW	YW	Milk	TM	SC	CE	MCE
74	730	0.6	37	69	24	42		6.0	6.5

8127 is an extremely attractive Colossal son out of a moderate, big bodied, perfect uddered Eastwood female. Eastwood left us with some really good sons that have sold through the bull sale, and what was even better was the set of daughters he left, they are some of the cornerstone cows of the herd. 8127 has a traditional Angus look to him, with a nice head, he is really nice in his lines, deep bodied and has a long square hip in him. This is on that you will want to keep every daughter off of. A highly maternal bull with a great look.

3

ANDERSON COLOSSAL 8120

2134124 | GEOFF 120F | APRIL 18 2018

S A V INTERNATIONAL 2020 | WILBAR EASTWOOD 200X

Act. BW	Adj. WW	BW	WW	YW	Milk	TM	SC	CE	MCE
91	750	3.2	52	88	22	48	-	0.5	2.5

8117 is a great combination of Colossal and Density. Density females are second to none in the Angus breed. This will be a highly maternal herd sire prospect that won't sacrifice any pounds at weaning. 8117 is a bull that will add extra length, hip and top while maintaining depth and eye appeal. This is one of the favorites in the 2 year old pen.

5

ANDERSON COLOSSAL 8098

2134120 | GEOF 98F | FEBRUARY 24 2018

S A V INTERNATIONAL 2020 | WILBAR EASTWOOD 200X

Act. BW	Adj. WW	BW	WW	YW	Milk	TM	SC	CE	MCE
93	707	4.6	53	84	15	41	-	-1.5	7.0

8042 is a highly attractive, cool looking bull. He is sired by Primo, a bull noted for producing incredible looking females. 8042's dam Soo Line Euthalla has been one of the great cows we had in the herd. She has produced 7 bulls that have sold though the bull sale including her first calf, by Motive, being the high selling bull off the day. 8042 is a bull with a ton of style, substance and should sire a highly attractive calf crop.

TWO YEAR OLDS

Renown & Stone sons

7

ANDERSON RENOWN 8059

2134119 | GEOFF 59F | FEBRUARY 01 2018

RITO 707 OF IDEAL 3407 7075 | MCATL REFLECTION 120-577

85	718	1.4	63	106	28	59	-	5.0	7.5

9069 is one of the most unique bulls in the sale. Definitely not the biggest framed bull, but one that has as much middle and rib as any bull you will find. A tanky built Payweight son that would be a full brother in blood to Lot 23. Ruby 1529, the dam of 9069, is a full sister to Ruby 1436. A Payweight, Motive/Dagger combo that will produce easy doing, graze all year kind of cattle, that should calve easy and be very maternal.

84	699	2.1	42	72	19	40	-	4.5	6.8

9064 is a well-balanced Density / Reflection combo. Another Density son backed by a tremendous cow, this is one that should also leave a big time set of daughters. 9064 is smooth shouldered, nice headed, and still has enough body and mass. He is deep ribbed, long spined, and long hiped. A very complete bull that is tough to poke a hole in. Again one that will be easy calving with maternal punch.

Act. BW	Adj. WW	BW	WW	YW	Milk	TM	SC	CE	MCE
78	714	1.8	40	73	19	39	-	4.5	4.8

9071 has been a standout Density son from a very early age. The Murihead Density bulls are an impressive sire group. Look to them to add maternal and udder strength, be calving ease, hairy and good looking. 9071 possess all those strengths and doubles up the maternal power with a beautiful Motive dam. This is a bull that should sire some amazing daughters that should be perfect uddered. If I had to guarantee one bull in the sale to be a pronounced udder improver, this would be the one I would pick. A good looking, easy calving bull, full of maternal potential.

27

ANDERSON DENSITY 9098

2134113 | GEOFF 98G | FEBRUARY 13 2019
