Moose Jaw, Sask.**

4 miles West of Moose Jaw on
Trans-Canada Highway

Foreword

Welcome to LaBatte Simmentals 39th Annual Spring Bull & Female Sale on Friday, March 1st, 2019 at Johnstone Auction Mart, four miles west of Moose Jaw on #1 highway. Again we would like to thank all the bidders and buyers from our past sales for the continued support and effort you make each year to attend our sale. It is very much appreciated. As I write this foreword in mid January it has really been a nice winter so far, milder temperature than usual and less wind than usual. This really helps the feed piles and makes life a little easier. Calf and cow prices have risen quite a bit in January with the heavy calves bringing almost the same dollars per pound as the lighter calves. Those big, soggy Simmental and Simmental cross calves are bringing a premium and adding extra profit dollars in the commercial people's pockets.

There's been some changes in our sale again this year as Meadow Acres Farms, our guest consignor for the past five years, have grown their own numbers where they are able to have their own sale on their farm in mid March. The Fornwalds were great guest consignors bringing quality bulls to our sale. They believed in the same values as us, focusing on the commercial industry first, purchasing bulls to better raise the quality and kind the commercial people are looking for. Thanks Dustin, Kirsten, Blair and Laurel for all the hard work you did at our sale and all the best to you in your future endeavors.

With that brings our new guest consignor, East Poplar Simmentals, Kyron & Kelsey Manske of Coronach, SK. These young, enthusiastic Simmental breeders purchased fifty cows from us this fall with the option of putting some bulls in our annual bull sale. They will have ten bulls in this year's sale and will have more in the coming years. Many of you might know Kelsey already as she is the YCSA Coordinator for the Canadian Simmental Association and does a great job with the young kids coming up in the livestock industry. Kyron worked for me one spring and summer a few years back and was a very good, fun hired man. I've known the Manske family for a lot of years and they are good, hard working people. I think they are, and we are for sure, pretty excited having them as our new guest consignor.

As for our bull sale offering this year it will consist of 54 thick, meaty, red, black and fullblood bulls. We will be selling our first sons of the \$100,000 Wheatland Bentley bull that ourselves, Circle 7, Soderglen and Cowtrax purchased in Wheatland's 2017 Bull Sale. His progeny are only available at these operations. He's made our black bull pen the best it's ever been. Our red pen is headed up by some new genetics also, first sons off our Agribition Champion, Captain Scream. They are thick, meaty, deep sided bulls that will catch your eye. Also the first sons of the R Plus Red Century bull that we purchased with Circle 7 in 2017. In our judgment he was in the top 2-3 red bulls sold that year and are very satisfied with his progeny. Added to the red section SVS Brooks and IPU Red Deputy, the reds are one of the most consistent groups we've had. The fullbloods are headed by the French Attack sons, Mr. Adonis sons, Solstice sons and a very good, polled Blueprint son. These fullblood bulls make a great cross with your black and red cows producing those sought after baldy calves. In the open purebred heifer division we will be selling 18 top replacement heifers, red and black.

If you are unable to attend the sale, give myself or East Poplar Simmentals or any of the sale staff a call to have the sale offering evaluated for you. We can be reached the day prior and sale day on our cell phones: Barry 306-815-7900 or Kyron 306-267-7530 or Johnstone Auction Mart at 306-693-4715. If you have questions earlier give us a call on our cells or our home numbers. The sale will also be broadcast live on dlms.ca, so contact Mark Shologan for more information and help getting approved for bidding, phone number 780-699-5082. We welcome your visit to our farms anytime to see the bulls and heifers first hand.

Come join us Thursday night at the Heritage Inn in our hospitality room for some socializing and laughs. We look forward to seeing you on Friday, March 1st at Johnstone Auction Mart, Moose Jaw, SK. Join us for a complimentary dinner prior to the sale and also after the sale for some socializing, refreshments and snacks. Best of luck in 2019 and hope to see you sale day.

Barry

P.S. Grandkids are doing great. They're all growing like weeds and are full of energy. Brodyn, the oldest, was fifteen years old in November, is six feet tall and a great help around the farm and the cattle. The other boys are into hockey and, get this, "horses". They're into 4-H, both grain and beef. The girls are busy with karate and basketball. They brought Grandpa pizza tonight for supper after basketball practice and, of course, we found a little ice cream for dessert. We're so lucky that they all live so close and go to school in Gladmar as we get to see them quite often.

LaBatte Simmentals - Wilf Davis, Douglas, MB

Sale Headquarters

Heritage Inn - 1590 Main St. N., Moose Jaw, SK
South of the overpass at the junction of #1 and #2 Highways
Telephone: 306 693-7550 306 693-1242 (ask for rooms reserved for LaBatte Simmentals)

Health

All bulls will be scrotal measured and palpated. Bulls over 12 months of age at time of testing will be semen tested.
Bulls under 12 months of age at time of testing will be semen tested prior to delivery. Weights will be posted sale day. All bulls and heifers were given CattleMaster 4, Somnustar PH and Fortress 7 in June and boosted with same in September. All were treated with Ivomec Pour-on in September and January.

**"Sight Unseen"
Purchase Program**

If you are unable to attend the sale but are interested in our bulls give Barry or Kyron a call and they will personally go over the bulls and your program with you. They will recommend which bulls they think would meet your satisfaction and refer you to one of their sale staff.

In-Herd Semen

LaBatte Simmentals & East Poplar Simmentals reserve the right to collect semen on any bull sold through this sale. The semen collection will be at the seller's expense and the buyer's convenience. Any semen collected will be for in herd use only.

Delivery

At the buyer's option and risk, LaBatte Simmentals and East Poplar Simmentals will take purchaser's bulls home, feed them under their management and deliver them FREE anywhere in the prairie provinces to your nearest central location. We will do our utmost to deliver them right to your yard. Delivery will take place between April and the middle of May. For bull buyers outside the prairie provinces, bulls will be delivered at a reasonable charge. The bulls are the property of the buyer as soon as they are sold. Therefore, buyers must insure their animals for the time they are at LaBatte Simmentals and East Poplar Simmentals. The heifers will be delivered as soon as possible after the sale.

If you are unable to attend our sale, please join us by viewing the sale live online at www.dlms.ca. For more information and help getting approved for bidding, contact **Mark Shologan 780 699-5082**.

Guarantee

All animals will carry the standard breeding guarantee as specified by the Canadian Simmental Association. At no time shall the seller's liability exceed the purchase price of the animal.

Video

Video of sale bulls will be available. For LaBatte Simmentals go to www.labattesimmentals.com. For East Poplar Simmentals go to facebook.com/eastpoplarsimmentals or www.dlms.ca to view.

Terms & Conditions

The sale will be conducted under the standard Johnstone Auction Mart Ltd. Terms & Conditions.

Accidents

Although every precaution will be taken to protect the safety and comfort of buyers, neither the Sales Management, auctioneer, consignors, or Association assumes any responsibility in this matter and disclaims any liability legal or otherwise in the event of accident or loss of property.

IPU CPT. SCREAM 83F

HOMO POLLED. This Captain Scream son has been a standout since birth. He looked great as a calf, great in the summer and continued on through weaning and still is a standout today. His mother is a solid red Liner 56U cow with a great udder. In last year's sale her Westcott son sold to the good purebred operation of Pearson Simmentals at Calmar, AB. She also has two sons working in the commercial herds of Frank Arnal, Eastend, SK and Rolling H Farms, Biggar, SK. 83F himself has an excellent body type, long, great rear quarter, is deep bodied, loose hided, big topped and has big testicles. He had an actual weaning weight in early September of 1010lbs. We think a lot of this homo polled herdsire prospect and think he has a great future.

IPU DILLINGER 7F

HOMO POLLED. A dark red Dillinger 80B son out of a first calf Bartender daughter going back to a really good Red Ace cow. This is Brodyn's bull. His mom and dad gave him the good 121D cow as a heifer calf for all the good work he does on the farm and with the cattle. He can run any piece of equipment on the farm, helps with the cattle, and we think he's a pretty nice kid too. He's been rewarded with this good, dark red Dillinger son who should be a calving ease specialist. He's very smooth made, long bodied and has a really nice uddered Bartender daughter for a mother. He's in the top 3% of the breed for calving ease EPD, top 5% for birth weight, top 2% for maternal calving ease and top 5% for API.

Here's a really nice made, smooth, long, dark, good haired Red Century son out of a really nice Horizon cow. His sire, Red Century, was purchased out of the 2017 R Plus sale as the high selling red bull. In our estimation he was one of the really top red bulls to sell that year. He was so loose made, deep bodied, great haired and thick quartered. We think this bull will sire some really nice calves with his type, hair coat, moderate 90lb birth weight and style.

HOMO POLLED. Another good Red Century son off a beautifully uddered, red El Tigre daughter. These El Tigre cows, red or black, are really making some super cows; excellent udders, easy fleshing, pear shaped and great footed. 109B has a Sheriff son working in the herd of Salty Lake Farms at Watrous, SK. They were using him in their heifer pen. 31F is long, smooth, stylish and has a great hair coat like his dad. This bull would throw some excellent replacements and really good steers.

This is an excellent Red Century bull, one of my favorites. He couldn't quite decide if he wanted to be dark red or lighter red. This bull calf is chuck full of meat and muscle. Get in behind him and he is wide topped, thick quartered, great haired and just a powerful, meaty bull. What a set of feeder calves he would raise.

IPU RED CENTURY 49F

A blood red, Red Century son that is moderate framed, deep bodied, thick and meaty. He is very stylish and easy to find in the bull pen. His mother is a really nice, feminine daughter of Horizon. She has had two progeny go through the sale already, a son to Frischholz Farms at Minton, SK and a daughter in last year's sale selling to Blooming Prairie Simmentals at Ambrose, ND. A nice low birth weight, great color and hair, moderate and thick, this Century son will be a good one.

HOMO POLLED. A Captain Scream son out of an excellent Red Ace cow of Hayley's. His mother is one of our favorites; excellent udder and deep bodied, just a tank of a cow. She just calved today as I write this, having an IPU Lieutenant 24E bull calf. This will be her fifth son selling with her first four going to the good commercial herds of Trevor Jones, SK, Triple T Ranch, SK, Prairie Sky Land & Cattle, SK and La Casse Farms, SK. She has a daughter at Robb Farms and is the grandmother to the Lot 2 (IPU 7F) bull in this year's sale. This Scream calf is dark red and smooth made and with a nice low 90lb birth weight should be a calving ease bull.

This blood red, Red Century bull calf is very thick made, long, stylish, good haired, and is mothered by an awesome, solid red, half Fleckvieh cow. She is one of our top cows, going back to the Anchor "T" Barbi cow family of Virginia Ranches. We have sold bulls through our bull sale and heifers through Smmsational out of this great cow. I would be keeping every heifer calf out of this bull as they will be awesome cows.

Another candidate for the heifer pen. His sire, Black Edition, has been used very successfully on heifers for many years now. We bought 71F's dam as a bred heifer in McMillen Ranching's fall 2017 female sale. She was bred Edition and the resulting calf is a very good, moderate framed, thick made, great haired, solid red son. He will be a non-diluter, being out of two black parents which means you can breed black cows to him and you'll either get red calves or black calves, no grays. This is a bull we liked all summer and still do.

This is the first calf crop off of the Sunny Valley Brooks bull. He was one of the high selling red bulls in the spring of 2017 selling to MI Simmentals in Alberta for \$70,000. Circle 7 Ranch and ourselves were the runner up bidder on him and we're very fortunate that Mike Imler let us buy a semen pack in him. We're very happy with his calves. He calves very good, sires dark red calves and they have some performance. This thick made, dark red, good haired Brooks calf has an excellent set of EPDs and with his 78lb birth weight should be a candidate for the heifer pen.

HETERO POLLED. This is a really good Red Century calf out of an awesome Accelerator 222U cow. We purchased 85F's mother from Rob & Dee Young out of Anchor D's female sale in the fall of 2016 as their feature lot. She was carrying a Spartan heifer calf that has turned into an awesome female. She just calved a few days ago and has a perfect udder. 72Y is one of the deepest, thickest, easy doing cows in our herd. This Red Century son will pass his great mother's traits onto his progeny. He will sire an excellent set of male and female progeny – the cowboy kind.

HETERO POLLED. Our first "Red Deputy" to catalog this year. If you remember, he was the \$77,000 Sheriff son that sold to Kunkel Simmentals in North Dakota. He has sired some great progeny, both bulls and heifers. In last year's sale his son, IPU Lieutenant 24E, was our high selling bull going to Hoegl Livestock and Bohrsen Marketing for \$53,000. His daughters have been high sellers at female production sales in 2018. We are calving his first daughters now and they have beautiful udders, are really feminine, pear shaped, great milking and are going to be some of the elite females in the breed. This Deputy son, 102F, is very impressive, dark red, thick, smooth and stylish. He'll be easy to find sale day.

IPU 139C BROOKS 109F

HOMO POLLED. Again, another Brooks bull that we feel is very, very good. He too has been one of our favorites. His mother is a moderate, really nice uddered Sheriff daughter. She weaned this bull off in early September at a whopping 1000lbs. Not bad for a second calver. 109F is long, has lots of top and middle, is thick butted and great haired. He's homo polled and homo good. He has an excellent set of well balanced EPDs. A bull you'll want to look up sale day.

HOMO POLLED. If you're looking for a super thick, soggy, loose made, red bull you have just found him. This guy is a tank! I don't know if we've ever raised a bull that is stouter than this guy. He's so loose made and has so much spring of rib. What a set of calves he would sire and he's homo polled to boot.

You can see why we really like these Brooks bulls. They're long spined, so smooth made, thick and meaty and structurally very sound. What really sold us on Brooks was his mother, the Red Sara cow. She was moderate framed with loads of capacity, beautifully uddered, dark cherry red and good footed. Her 2 yr old daughter we saw was outstanding also. This 121F bull will sire some really good females for the replacement pen with his Specialist mother and the Sara cow in his pedigree. His male calves will have the length and muscle to push the scales down.

IPU CPT. SCREAM 122F

HOMO POLLED. A powerful, stout made, Captain Scream bull out of a really nice made Horizon daughter. In last year's sale her good Bartender son sold to North Creek Simmentals for \$10,500. 122F is moderate framed but powerfully thick and deep, has a great hair coat and excellent disposition. This bull just has the character and dimensions of a herd bull. What a set of calves he would sire, whether purebred, feeder calves or replacement females.

HOMO POLLED. Century 123F is a transplant calf out of the great 105L Ms. Revlon 225X cow. We have retained seven daughters of hers in our herd; three beautiful, great uddered Horizon daughters, two Westcotts and now two Red Century daughters in the replacement pen. We have sold a \$95,000 bull off her and in last year's sale she was the great grandmother to our second high selling bull that sold to Lockhart Valley Simmentals at Rimbe, AB. If you score udders on cows like we do from 1 to 5, 225X's is a 5+. This beautifully hair coated, long spined Century bull should sire quite a set of calves. I would keep every female off him.

HOMO POLLED. We just finished writing about how good a cow 225X is, well she might have met her match with the mother of Century 131F. This Liner 56U daughter is as good as they come. What an awesome cow, great uddered, easy keeping, pear shaped, attractive, the kind you wish you had a hundred of. Circle 7 Ranch and ourselves bought her out of the Blacksand dispersal along with her red Lotto daughter. She's already raised a \$25,000 bull that went through this sale. Century 131F too will sire some excellent females that will be at the top of your replacement pen.

Consigned by LaBette Simmentals and Circle 7 Ranch

HOMO POLLED. Here's a dark red Century son going back to the 105L cow family. The 105L cow was one of the most prolific cows that ever walked our pastures. We have five daughters of hers working in our herd. She lived to be 16 years old and until the last year looked like a six year old cow. She had an absolute perfect udder and has passed this on to her daughters. She was blood red, super footed and a tank. Her grandson, 164F, is dark red like his mother and grandmother, has an excellent hair coat and is thick made. Again, another bull that would sire some outstanding females.

FULLBLOOD FLECKVIEH. NON-DILUTER. A good pair of French Attack sons both raised by their dam, Blackgold Ms Hillory 66B. She weaned off almost 1700lbs of calves, falling ten pounds short. Quite an accomplishment. She is a really nice made, red goggle eyed, Mr Adonis daughter that has lots of milk. The full Fleck sire Mr. Adonis has raised some outstanding progeny in the fullblood business. His daughters are great females and his bulls very saleable. Add French Attack to the mix and you have a powerful pedigree. These bulls should add milk and calving ease to their progeny.

IPU MISSLE 9F

HOMO POLLED-HOMO BLACK. This is a really nice made Missile son off a great first calf heifer we bought out of the 2017 Agribition sale from X-T Simmentals for \$12,000. She's moderate, has an excellent udder and is easy fleshing. 9F himself is moderate, really stout, balanced, has a great hair coat and a great disposition. He has a nice low birth weight of 80lbs but yet is thick and deep. He just has that herd bull look to him.

HETERO POLLED-HETERO BLACK. Another El Tigre son that is a full brother to "One In A Million". He is a transplant calf out of the great Temptress Clair 12R cow. All these sons off her have been powerful. This guy started off at 86lbs and grew to 1020lbs in early September. He's long, really nice through that front end and has lots of muscle. He would add pounds to your calf crop.

HOMO POLLED-HETERO BLACK. We had four transplant matings to El Tigre and Ultra Temptress Clair 12R this year resulting in three bull calves and one heifer calf. Unfortunately the "Four In A Million" bull got injured late this fall. This "Five In A Million" bull is a power bull. He had an actual weaning weight in early September of 1040lbs, our heaviest weaning bull of the year. His mother, Temptress Clair, was a beautiful cow, powerful, long bodied, deep, thick and had an excellent udder. 45F's calves will really push the scales down in the fall. This past year those heavy, soggy calves were selling for as much per pound as the light calves, putting money in your pocket for those extra pounds.

HOMO POLLED. This good bull is off of RF/RUST Stimulus 610D, the \$60,000 bull that came out of the Rancier and Rust Programs, and was purchased by WJ Simmentals. We were fortunate to be able to get a semen pack on him as we always wanted to use a son of the amazing "Flirt" cow family. 46F is mothered by a beautiful, black, El Tigre daughter going back to the Pocahontas 105L cow family. She is one of my really favorite cows, in the top five in our herd of blacks. A daughter of hers in last year's sale, a blaze face Priority daughter, sold for \$15,000 to DGR Cattle Co. and Beechinor Bros. in Alberta. This Stimulus bull is moderate, really smooth made, great haired and has a good disposition. He has a first class pedigree, top and bottom.

39

HOMO POLLED-HOMO BLACK. Powerful, powerful is how I would best describe this super stout bull. His sire, Wheatland Bentley 630D, is the \$100,000 phenomenal bull that sold at Wheatland in 2017. He was purchased by ourselves, Circle 7, Cowtrax and Sodergren Ranches. When talking to the sales managers, they described this bull as a meat wagon and would sire powerful bull calves. He has not let us down as his first calf crop is exceptional, both bulls and heifers. 58F's dam is a really exceptional cow, pear shaped, thick and easy doing. In last year's sale her El Tigre son sold to Speargrass Cattle Co., Bassano, AB for \$9,250. Bentley 58F is a true herd bull with his thickness, masculinity, deepness and hair coat. And as an added bonus homo polled and homo black.

This good haired El Tigre son is a 7/8 bull. He is mothered by an awesome three-quarter 56U cow. We sold 130X through our bull sale as a heifer calf to our good friends Southpaw Simmentals in Alberta as one of the high sellers in our sale. A year later we heard they were taking a few years off with Ron being so busy with his business so I phoned him and bought her back. Sure glad I did as she has really turned out great. Her first daughter we sold through our bull sale to Albrecht Farms, Sexsmith, AB and we sold a full sister to 66F in our 2017 sale to KT Ranches, Kelowna, BC. We have a Lotto daughter and a full sister again to 66F working in our herd. Buy this bull with confidence knowing he has a great mama.

HOMO POLLED-HETERO BLACK. 144A does it again! This Lotto cow is really producing top end progeny for us. In our 2017 bull sale she produced our high selling bull, a full brother to El Tigre 67F. He sold to Deeg Simmentals and Muirhead Cattle Co. for \$46,000. They renamed him IPU Resolve 114D and his sons will be some of the headliners in Deeg's bull sale this spring. Just this past December a Priority daughter of 144A sold at Simmsational to Dana Johns, MB for \$11,000. El Tigre 67F is a really good black bull, has lots of depth and rib, is good haired and thick and has that herd bull look.

Two super blaze face, black, half Fleck bulls out of an awesome cow. When Danny Skeels and myself purchased Precious Thing out of the Prospect Hill dispersal there was one thing I asked for and that was we flush her black at least once. What other choice of a black bull than Springcreek Liner 56U. I was hoping for some females with 56U and Precious Thing, as they would be the start of a new black cow family. Unfortunately we only got one out of the five embryos to stick but the embryo split and the recipient cow had twins, almost identical. These are a special pair of bulls, long, thick, deep, good quartered and they have great dispositions. If I was a commercial breeder, I would buy both of these bulls. They would raise consistent, thick, meaty steers and what a set of heifers for replacements. They'll work great on traditional cows, red cows and black cows and should throw a large amount of those highly sought after baldy calves.

This good Bentley son has a little story behind him. At a couple of months of age his mother had an unfortunate back injury and had to be put down. We had bought a Holstein cow (Freckles) to put twins on so she inherited 74F. That cow raised five calves and weaned over 3900lbs of calves. And, yes, we kept her and bred her. 74F's mother was really a good uddered cow, super, super long and went back to the Blackbird 223T cow family. This good haired Bentley son is long and smooth made and should be an easy calver.

HETERO POLLED-HETERO BLACK. Another outstanding Bentley bull out of a super daughter of NUG Pashmenia 403P, the Sweet Meat daughter Pashmenia 245Z. This will be the fourth progeny of hers to go through this ring. In our 2015 sale her black El Tigre open heifer was our high seller going to Crossroad Farms for \$18,000. In the 2016 sale her black Horizon daughter sold to Bert's NR Simmentals in Manitoba for \$12,000. In the 2017 sale her El Tigre son sold to Steve Graveley, Helmsville, MT for \$20,000 and now this great Bentley son, who might be the best of them all. He's so complete, stout, has lots of rib and shape, is good haired and has that herd bull look. This is the kind and type that we are trying so hard to raise for our good commercial customers. You can see why we are so high on "Bentley" as this group of bulls speaks for itself.

IPU DURANGO 118F

HOMO POLLED-HETERO BLACK. Again another one of our favorites. He is sired by the second bull we bought at Wheatland's 2017 sale, Wheatland Durango 656D. Ourselves, Cowtrax and Circle 7 purchased him together, with Circle 7 and Cowtrax getting the walking rights. 118F is mothered by a really good, young, El Tigre daughter going back to the Liner 56U cow, 130X. Durango 118F is the only bull calf we got but he's pretty special. He has a nice, moderate birth weight of 92lbs, is so smooth made, well balanced, thick and deep, has a perfect hair coat and is structurally very good. Again, he is the kind and type we strive to raise for our purebred and commercial customers. He has a real nice balanced set of EPDs with an API in the top 20% and TI in the top 10%. He also had an actual weaning weight of 1010lbs and ranked #2 against all his contemporaries.

IPU PRIORITY 133F

BLACK POLLED PUREBRED

BPG1252992 IPU 133F Twin 02 February 2018

BW: 80. adjWW: 887.

133F is a twin full brother to 132F and he was one of the five calves on our Holstein, "Freckles". She did a great job on all those calves weaning this guy off at 885lbs. This 133F Priority son is really balanced nicely, and is deep and thick. He has an excellent set of EPDs, being in the top 50% in 10 of the 13 categories. He's in the top 20% for calving ease, top 10% for weaning and yearling weights, the top 30% for API and the top 10% for TI. The baldy cattle are becoming very popular. The order buyers and feedlot operators like these cattle with a little chrome on them knowing there is probably some Simmental influence in them to give them the gain-ability and carcass values they're looking for. And the baldy replacement females definitely bring a premium.

HOMO POLLED-HETERO BLACK. This is Wade's Priority bull and he is a full brother to last year's bull Wade had in the sale that was purchased by Brad, Blake and Ryan LaBatte of Gladmar. His mother raised our high selling heifer in our 2017 sale female section, selling a black El Tigre daughter for \$14,750 to KT Ranches, BC. You'll travel a lot of miles to find a cow with a better udder than Tamale 159A and her mother was the same. This smooth made Priority son has a really nice set of balanced EPDs and would sire an excellent set of replacement heifers.

This near end of February Bentley son is deep and thick, has a lot of spring of rib, a great hair coat and is a bull I like quite a bit. He's so soft made, loose hided, docile and complete. His mother is a Lotto daughter off the great Ultra Temptress Clair 12R cow who was one of our matron cows in our black program. She was the mother of the One, Two, Three, Four and Five In A Million bulls. This smooth made, young, Bentley son would sire quite a group of steers and excellent replacement females. Look him up sale day.

Introduction

We are thrilled to be the guest consignor to the LaBatte Simmental Bull and Female Sale! Having the opportunity to purchase a group of cows from one of the leading herds in Canada and be invited to one of the most anticipated sales of the bull sale season is both a dream and an honour. Thank you Barry and Brenda for giving us this opportunity. We are very excited and grateful to be working with the LaBatte family.

East Poplar Simmentals may be a new name and fresh faces to some of you so here is a little introduction. The farm is located east of Coronach, SK and we are strictly a cattle operation. In 2006, after many years of using Simmental bulls on our commercial cows, we decided to get into the purebred business. In 2014, Kyron moved back to the farm and took over the cattle operation. Today we run around 130 cows with about 110 being purebreds and the remainder commercials. Until now the bulls were mostly sold off the farm by private treaty. Besides the cattle we have some other enterprises on the go. We do custom swathing and haying, are Gallagher and Stockade dealers and Kelsey is the Program Coordinator for the National Young Canadian Simmental Association. We welcomed our baby girl Embrie into the world last September and are excited to watch her grow up in this business.

This year's set of bulls is likely one of our most powerful sets to date. We are proud of the bulls we have to offer in this year's sale and think that there is a selection of bulls which can work in many different operations. We believe in raising bulls backed by strong cow families and that is a common element across all the sire groups this year. All the bulls are on our herd health program and will be semen tested and guaranteed. Delivery is free of charge, but we do ask that any bulls that come back to our place for wintering are insured. Most of the bulls in our offering have been homo polled and homo black tested and results will be available sale day.

Visitors are always welcome and the bulls are available to be viewed on the farm at any time or give us a call to discuss any of our offering. Videos of the bulls will be available on our Facebook page the beginning of February. We have an extensive list of professional sale consultants that can be of service if you are not able to make the sale and the sale will be broadcast live on www.dlms.ca.

Finally, a big thank you to all our past customers. Many of you have been long time repeat buyers and without you we wouldn't have made it this far. We look forward to seeing you at the sale and are eager to meet new cattle enthusiasts to discuss how our program can work for you.

Hope to see you all March 1st at Johnstone Auction Mart in Moose Jaw, SK!

EAST POPLAR LOTTO 802F

To say we are excited about this guy would be an understatement. 802F has been a standout all summer and with a pedigree that reads like his it's easy to understand why. The guess work is done on this guy being out of the highly proven Pashmenia 403P cow and sired by Lotto. When we purchased these embryos from Barry this was the quality we had in mind. We have two full sisters in the replacement pen and purchased another full sister in the group of cows we recently bought from Labatte's. A full brother to this guy sold to Westway Farms through this sale a few years back for \$15,500 and has been used successfully in their program. You have to appreciate 802F for his depth of quarter, huge rib and width of base.

EAST POPLAR
BLK BRINKS 808F

Here is a bull we have been impressed with since a calf. He's a powerful, deep bodied, smooth made bull with a tonne of middle. We lost the Brinks 619D bull due to injury after his first year of service, but the calves we have out of him sure make us wish we had more. A lot of maternal strength behind 808F with the LRX 12Z cow on the top side who has done great things for the Muirhead program, and on the bottom side of the pedigree he comes from one of our best cow families. His dam, EPS 532C, is a moderate framed, easy doing female with a real nice udder and is quickly establishing herself as one of our favorite cows.

Another powerful Brinks son here. 832F is very similar in type to 808F with a bit more frame to him. Both of these bulls stem back to the East Poplar Suzy 8S cow who left a lasting impression on our herd with 19 females in our herd tracing back to her and another three who have sold through Simmsational. 832F will have your steer calves pounding the scale down in the fall and leave you with some strong replacement heifers.

Embrie at 3 months

The Brinks 619D bull really stamped his calves with the same look and presence about them. This half blood bull is a perfect example of that; big hiped, deep bodied and loads of top. You have to appreciate how smooth shouldered he is and how he transitions into his front end. This guy strides out nicely and has style to burn. Look to 819F to add power to your calf crop while still maintaining some calving ease. The dam of 819F is a smaller framed Angus cow that weaned this guy off at 64.9% of her body weight.

Take a close look at this April born bull, as we feel he holds his own quite well with the older bulls in the pen. 885F is an extremely deep bodied, loose made bull backed by a great cow. We purchased 885F's dam in 2016 from Erixon's and she went on to be the Grand Champion Simmental female at Manitoba AgEx that year. She is a tank of a cow who is backed by the EDN Nika 37N cow who has done a great job for Dave & Krista. We quickly put her into our embryo transplant program and are expecting 6 maternal siblings to 885F this year.

This guy is a dark red, high performance, big middled, muscular bull that will be sure to add some pounds to your calves in the fall. We have had good success with the Super Duty bull and this bull goes on that proven track record. His dam is a consistent producer with a bred heifer that was in the top of our pen this fall who went on to sell at Simmsational and she raised a bull calf that sold to Glen Krusky. If you are looking for a red bull, take a good look at him!

FOREWORD

LaBatte Simmentals will be consigning 18 open purebred replacement heifers in this year's sale again, including 9 black and 9 red heifers. This is a really good set of heifers again and they're represented by some of the leading sires in the industry – Bentley, Durango, Priority, Stimulus, Westcott, Brooks, Red Century and the Agribition Grand Champion Bull, Red Circuit. If you have any questions about these heifers before the sale be sure to give us a call and we will be glad to go over them with you. Or, better yet, come and have a look at them before the sale. We would be glad to show you them and their brothers in the bull pen.

Something a little different here. 43F is sired by Maple Lake Publicity 443B, a really good son of the 786T bull. We've always liked the 786T progeny at Gerry Bertholet's. He calved really good yet left performance and style in his calves. Publicity was Reserve Grand Champion at Ag-Ex when he was shown and the next spring we bought a small semen pack on him. In last year's bull sale the mother of this heifer had a bull calf sell to Brian & Paige Uran for \$11,500. This Publicity daughter is really nice made and she's moderate, thick, pear shaped and broody.

Open.

HOMO POLLED. A really good Stimulus daughter out of a really nice, young Cobra cow we purchased from Pheasantdale Simmentals as an open heifer. These Stimulus females are going to make some awesome cows. This heifer is very attractive and clean fronted but still has some muscle in her. She has a great set of balanced EPDs and is homo polled by parentage.

IPU 247Z UPTOWN GIRL 158F

Our last black heifer is a blaze faced, moderate, thick, Priority daughter that was born on Valentine's Day. Her mother, the Black Attack 247Z cow, has had three progeny go through our bull and female sale. Her first daughter sold to Anwender Simmentals, Radville, SK in the 2015 sale. In 2016 her El Tigre son was one of our high selling bulls going to Hansen Simmental Ranch, ND and in our 2018 sale her El Tigre son sold to our good commercial bull customer Allemand Ranches, SK. Also, East Poplar Simmentals purchased her 2016 El Tigre daughter in their package of cows. Uptown Girl 158F is a really nice, feminine, great haired, pear shaped Priority daughter. These Priority daughters are just calving now and we're really impressed with them.

IPU 140B POCAHONTAS 119F

HOMO POLLED. We are starting off our red section of heifers with a real feature. This beautiful Westcott daughter is out of the Crosby sired 140B cow going back to the Pocahontas 68M cow. She is a beautiful uddered cow and looks very much like her elite donor dam, Pocahontas 68M. In last year's sale her heifer topped the red division with her Red Deputy daughter selling for \$15,000 to KT Ranches, BC. We own this heifer 119F jointly with Bar M Simmentals, Gillette, WY. Jim purchased the 140B cow as a bred heifer at Simmsational for \$35,000 and decided to leave her in Canada. Her Westcott daughter is a moderate framed, deep, angular, feminine, broody heifer with a great future ahead of her. You can already see she is going to have a perfect udder like the Pocahontas cow family does. We think this heifer calf has a great amount of potential for her new owners with her pedigree, style and broodiness.

IPU 197X POCAHONTAS 126F

HOMO POLLED. Another granddaughter of the Pocahontas 68M cow. 126F's dam, the IPU 68M Red Essence 197X cow, knows how to produce the good ones. In the 2015 Simmsational sale her Bootlegger daughter brought \$25,000, selling to Quinn Wilson of Wilson Stock Farms and in the 2016 Simmsational sale her daughter was the top seller of the sale going to Red Top Simmentals and Beechinor Bros. for \$29,000. She is now in their transplant embryo programs. This 197X daughter is out of R Plus Red Century, the popular Hitman son we bought out of Marlin's 2017 bull sale where he was the high selling red bull. 126F herself is going to be a lot like her mother; deep bodied, long, good haired, broody and is homo polled by pedigree. There's not a lot of opportunity to buy progeny off the elite Pocahontas 68M cow family. Take advantage of this one.

A dark cherry red, Brooks daughter out of a Reload cow we purchased as a pick of the R Plus heifer calves back in 2015 at Marlin's bull sale. She has turned out to be an awesome looking cow with a perfect udder. We're really pleased with how the SVS Brooks 669D bull is breeding for us. He was purchased for \$70,000 out of the Sunny Valley sale going to Mike Imler of MI Simmentals. We were runners up on him and were very fortunate Mike sold us a semen pack in him. He sires excellent bulls and heifers. This dark cherry red daughter of his is nice fronted, has a great hair coat, is feminine, long bodied, deep and has lots of eye appeal.

This is another really good heifer out of Red Century and a powerful Wildcard cow that now resides at East Poplar Simmentals. We have retained an excellent Westcott daughter of hers that will be calving soon. This 153F heifer is deep sided, nice fronted, good haired, feminine and, we think, is going to be a really good cow in the future.

A nice, moderate, blaze faced, Springcreek Spark Plug daughter. Her mother is an excellent uddered Marksman daughter that produced another heifer that went through this sale, a Red Zone daughter, that sold to Blooming Prairie Simmentals, Amber Haugland, ND. This heifer has a beautiful blaze down the middle of her head, is very feminine, nice fronted and just a cool heifer.

IPU MS. RED CIRCUIT 161F

This is one of our feature red heifers sired by the 2018 Agribition Grand Champion Bull, Swan Lake Red Circuit 28D, shown by Swan Lake Farms, Greg and Branden Goudy. We feel this heifer has loads of potential. She's mothered by a really good, blaze faced, Horizon cow that had a heifer go through this sale before, selling to Jetstream Livestock, ON. She is deep, angular, attractive, good haired and a brood cow in the making. Being out of the reigning Agribition Champion doesn't hurt either.

This is a tremendous Spark Plug heifer off a really good Beef Maker cow going back to the Noremac 16M cow family that 3D Simmentals and ourselves had so much success with. This will be the sixth progeny that 87X has put through this sale. Four bulls selling to the good commercial herds of Robin Frerotte, SK, Glen Aldentaler, SD, Nick Stormo, SD and Allemand Ranches, SK, a \$12,000 heifer to Jean-Francois LeBlond, PQ and now this really good Spark Plug daughter. 166F is deep bodied, pear shaped, has that cow look and is out of an outstanding cow family.

Another Spark Plug daughter going back to a Bootlegger Red Chief cow. We think these Spark Plug daughters are going to make some really good cows. This is the first group now calving this year. Spark Plug's dam just recently sold for \$50,000 at Springcreek's December sale. This heifer is just like her dad, having a blaze face. These red and blacks with some chrome on them are really in demand now.

Our last heifer is a good, blaze faced, March heifer out of the 2018 Agribition Champion, Swan Lake Red Circuit 28D. Her mother is a nice, blaze faced, Hot Iron female that raised a \$14,000 Westcott son in last year's sale that sold to East Poplar Simmentals and now they own his mother, IPU Ms. Hot Iron 84Z. 185F is dark red, blaze faced, very attractive and is only a March heifer.
