PREMIUM GENETICS

Bull Sale

Saturday, March 18, 2023 • 1:00 PM • Johnston Auction Mart, Moose Jaw, SK

Welcome to the Premium Genetics bull sale. This is a multi-breed offering from some of the most dedicated seed stock producers in the region. This group of contributors continues to improve their offering year over year and you will find strong bulls that you can confidently add to your herd.

If you are a commercial cow calf operator then this is a one-stop shop for you. The importance of hybrid vigour will never be realized more than the next few years. The market has eclipsed \$3.00/lb and is trending toward \$3.50 every pound means so much. And crossbred calves will be more valuable than ever in the history of this business. We can offer nearly every profitable genetic combination your program requires.

Feel free to contact any of the consignors or sale staff if you have any questions about this group of bulls. And feel free to come see the consignment on the 17th to inspect the bulls and enjoy some fellowship.

As always sale day lunch will be provided.

See you sale day,

the consignors, of the Premium Genetics Bull Sale

welcome from First Class Cattle Marketing

Welcome to the Premium Genetics Bull Sale. It is with great pleasure that we have once again be asked to work with this excellent set of consignors as well as the folks at Johnstone Auction Mart on this upcoming event. On offer will be roughly 35 bulls represented from 5 different beef breeds. There is a large selection of both yearling and two year old bulls this year. Here for your appraisal is a big number of those power, performance bulls that will add the extra pounds we are looking for in our calves at weaning time. Turn these bulls out with a large group of cows for a greater return on investment. These bulls are the right kind, sound, hairy, stout and functional. Also on offer will be a good selection of calving ease, heifer approved bulls. These bulls have been designed with calving ease in mind. They are low birthweight and are genetically superior in this department. Look to these bulls if you have groups of heifers or young cows to breed. All the bulls on offer at this years sale have been bred and fed to go out and work and are guaranteed 100%. I encourage you to visit with each individual consignors to discuss their offering and find the bull best suited to your needs.

Please plan on joining us March 18th in Moose Jaw for the Annual Premium Genetics Bull Sale. The bulls will also be onsite in the days prior to the sale for viewing. We will be having a pre sale get together on March 17th prior to the sale so please plan on joining us for that as well. We will offer you some great hospitality as well as show you some great bulls. If for any reason you are unable to attend, all of us at First Class Cattle Marketing will be very familiar with the offering. It will be our pleasure to assist you in a professional and confidential manner in the selection of your next herd sire. Mark Shologan with DLMS will also be onsite if internet bidding is what you prefer. I hope to be able to visit with everyone in Moose Jaw and wish you all the best in 2023.

Sincerely,
Darnell Fornwald

Hereford YEARLING BULLS

HMS HI-CLIFFE

HMS Hi-Cliffe, owned by Hunter, Morgan, Sydney, Brenda, and Carmen Millham. We are a small family ranch of 30 purebred Polled Herefords. We are passionate about raising quality cattle for the commercial and purebred industry.

The processing protocol: IBR, BVD, BRSV, Pasteurella, Heamophilus, and Blackleg vaccines, endectocides and fly control are given in the spring and fall. Bulls feeding regime: Free choice hay supplemented with Masterfeed Propel and a vitamin/mineral mix.

We have entered three powerful bulls, with some calving ease, all docile. The strength of these three lie on the maternal side. Ultra, Godiva, and #27 are three of our top five cows in the herd. longevity and history.

Hereford YEARLING BULLS

LONE PINE CATTLE SERVICES

Lone Pine Cattle Services is located in Vibank and is owned and operated by Rob and Dawn O'Connor. We breed about 100 purebred females annually. Our genetic program is made up by using a combination of herd bulls, artificial insemination and embryo transfers.

Our bulls are raised using a 13% ration and free choice hay. The yearlings spend the summer at a pasture about 15 miles from our farm.

Our calves are vaccinated in late spring with Vision 8 Somnus with SPUR and in autumn with Pyramid FP5 with Prepsense.

Rob, Dawn, Lexie and Jessica O'Connor

We used this impressive individual on cows and heifers last year. He ran with the herd until late October. His dam has been a strong producing cow that was a former show female, earning the Canadian Hereford Association's Silver Medal award.

This guy is a power bull that'll increase weaning weights.

I bought a package of bull calf pairs last spring and these two Trendspotter calves were part of those pairs. This calf was chosen in big due to the strength of his Gustov mother. She moderates framed, big volumed with a neat udder and a decent foot. 2K himself is very moderate with adequate size, a good hip, big bellied, good topped and a nice hair coat. Just a later February calf, he hasn't had any trouble keeping up with the older bulls and would make a real decent heifer bull prospect.

A last-minute sale entry when one of the other sale bulls had a bit of a mishap, so there is no picture or video of him. But he is patterned very similar to his brother, the 2K bull. He is maybe is just a tiche more moderate framed and a little bigger topped. He has an awesome hair coat and a calm temperament. He was a bit tough looking when I got the pairs last spring, but his two year old mother really turned it on when they hit grass in early June. He will make a superb heifer bull and produce very moderate, great uddered females. Also a late February calf that fits in quite nicely with the older bulls.

A Bravo son with a more frame than the Bravo's are known for but off a power producing Sooline Yellowstone cow. Her first bull was kept and used in my own herd. He produced a lot of nice heavy crossbred steer calves. I think this guy will do the same thing. Good footed, long bodied with good performance and a very nice mother. He will produce excellent replacement quality females. 277 day gestation.

This calf is a favorite with everyone that sees him. He is deep bodied, smooth, long, great feet and performance to burn. He was Grand Champion Black Angus bull calf at Frontier Days his only time shown. A puppy dog personality is just the icing on the cake. He is so calm that a 5 year old girl was leading him around the Frontier Days fairgrounds. He is a proud show off and knows he is special. I think a lot of this calf and would like to work with the new owners and be able to use Gabe in my own herd this spring.

Simmental YEARLING BULLS

COULEE CROSSING CATTLE COMPANY

Welcome to the 2023 edition of the Premium Genetics bull sale. It has been an interesting winter to say the least. With winter starting with a horrendous 2 day blizzard on October 23rd that left us without power for 30 hours and almost 2 feet of snow. Then the extreme cold in December along with some early calves precluded getting the bulls clipped in time for pictures. Then it was a comedy of errors on picture day with snow banks in the picture pen, a broken head gate and the bulls refusal to go down the chute. So what you see in the photos and videos is the bulls in their natural working clothes. I used a different pellet program for the bulls this year along with free choice brome alfalfa hay. The bulls didn't perform as well on this pellet as they did on the previous pellets but they will still go out and breed your cows just like other years. Bulls are available for viewing anytime at the farm prior to sale time.

A thick, hairy, deep bodied, thick, quiet bull. His LaBatte bred mother has been an exceptional producer, with this her fifth bull calf. 4 made the sale and one was retained for in herd use. His mother is deep, thick, moderate framed, good uddered, quiet and super hairy. I would love to have a whole herd of cows like her. He will produce great calves, male or female, and will work on a large variety of type of cows. She does throw a bit of longer gestation in her calves, but birthweight is never an issue. 292 days gestation

A very nice black bull here with a little more frame to him. This is the second bull his mother has put in this sale and he is every bit as good as the first one. His maternal sister just calved the other day and she has an exceptional udder. Don't let his birth weight scare you, with his extra length, that translates to pounds. Going back to a fullblood cow as his granddam and a blaze faced mother, he very well may throw some chrome as well. He would work great on some cows that need a little more frame and performance in their calves. 283 day gestation

Heifer Approved

This bull checks a lot of boxes, low birthweight, calving ease, chrome, vigor at birth, and adequate performance. He has a beautiful uddered moderate blaze faced mother. His sire Chip is proving his worth here every time a calf hits the ground. The vigour at birth in his calves is incredible, up and searching for the udder in 5 minutes and bouncing around while doing it. The depth and thickness this bull possess is what every bull should have and he is built just like his daddy in a more colourful package. 282 days gestation

Bought in dam from the Wilson Stock Farm dispersal, this dark red blazed faced bull just keeps getting better every day. He is smooth overall with some length and depth of body and decent performance as well. His mother is a moderate framed good uddered cow that will hopefully be around for many years. A nice moderate birthweight and smoothness says he should work very well on heifers.

This blaze faced bull is long, deep sided, quiet and thick. His mother is the only fullblood cow on the place and produces exceptionally well. Her bull in the sale last year went to Keiran and Deb Doeztel. A moderate birthweight, excellent performance and dark red colour. He should produce awesome steer calves and quality replacement females just like his good uddered and good footed mother. 288 days gestation

A black Tank son that comes out of our Your Up 25Y cow, who just keeps producing good calves. 17K is stout made with lots of natural capacity, combined with being super long bodied and tons of hair. He completes this package with an excellent temperament. He will sire calves that will keep proving his value. Half brother to Lot 35

Long bodied, deep sided, very level topped and smooth made. Combined with a large scrotal and super hair coat makes this bull very interesting. He will really add some pounds to calf crops at weaning.

Thick and loaded with muscle is the best way to describe 10K. He is very strong topped with lots of performance, easy fleshing, soggy loose hided and puppy dog quiet. His dam is a deep bodied thick female who just keeps producing thick powerful calves. A full brother to 10K sold last year to Brandon and Samantha Nemetz. Homo polled

Easy Street continues to show the calving ease he is known for. 3J has a very nice 80 lb birth weight and is out of a first calf heifer. This guy is extra smooth, long bodied, big scrotal, very quiet and has a really good foot under him. His dam is a good milking Rust daughter so he has calving ease on both sides of his pedigree. We thought so highly of this bull that we used him to breed some of our heifers.

thank you to everyone who supported the Premium Genetics sale in 2022

notes

terms and conditions

The terms of the sale are cash or cheque payable at par at sale location unless satisfactory credit arrangements have been made prior to the sale. The right of property shall not pass until after settlement is made. First Class Cattle Marketing reserves the right to require a certified cheque as settlement before releasing any sale cattle. Should the purchaser fail to settle for his purchase, First Class Cattle Marketing reserves full power to resell the animal to the best advantage, either publicly or privately, without further notice. Any loss arising from such resale, together with keep and all other expenses shall be payable by the defaulter. All settlements must be made with the clerks of the sale before any cattle will be released. The owners, First Class Cattle Marketing and sale staff have the right to refuse bids from anyone who has a previous record of default in payment and/or who has not made prior credit arrangements prior to the sale with the owners and/or Sale Management.

BID Every animal consigned to the sale must be sold by auction. No by-bidding will be permitted. Each animal will be sold to the highest bidder.

DISPUTES In cases of disputes, bidding will be reopened between the parties involved. If no further bid is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

PURCHASER'S RISK Each animal becomes the risk of the purchaser as soon as sold.

ANNOUNCEMENTS from the auction block will take precedence over printed matter in the catalogue. Buyers are therefore cautioned to pay attention to any such announcements.

CERTIFICATE OF REGISTRY The proper Registration of Recordation paper, as the case may be, will be duly transferred and furnished to the buyer for each animal after settlement has been made.

SHIPPING Assistance will be given in making shipment after the sale, but Sale Management or Seller assumes no risk. Expenses incurred are the responsibility of the purchaser. Purchasers are requested to furnish shipping instruction when making settlement.

GUARANTEE All animals will carry standard breeding guarantee as specified by the applicable Canadian breed Association. At no time shall the seller's liability exceed the purchased price of the animal.

EXCEPTION TO GUARANTEE In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, the guarantee shall be null and void. In the cases of bulls, they are guaranteed to breed naturally according to applicable Canadian breed Association guarantee, but no guarantee is given that semen from any bull will freeze.

HEALTH It is the buyer's responsibility to determine health requirements for importing any animal into his province or state. First Class Cattle Marketing assumes no responsibility for the health status of any animal in the sale.

ACCIDENTS Although every precaution will be taken to protect the safety and comfort of buyers, neither the Sale Management, auctioneer, or Association assumes any responsibility in this matter and disclaims any liability legal or otherwise in the event of accident or loss of property.

RIGHTS AND OBLIGATIONS The above terms and conditions of the sale shall constitute a contract between the buyer and the seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and the terms and conditions of this sale do not cover obligations of the two parties connected thereto.

FIRST CLASS CATTLE MARKETING LTD IS AGENT

ONLY It is clearly understood that First Class Cattle Marketing acts only as agent between buyer and seller and is not in any way responsible for any failure by either party to live up to his or her obligations. First Class Cattle Marketing does not assume any financial obligations to collect or enforce collection of monies by either parties, and in exceptional case, any legal action will be between buyer and seller. First Class Cattle Marketing Ltd has no ownership of the facility and assumes no responsibility for the operation of said facility.
