FROM THE DESK AT

T BAR...

Southsask Simmental, Sim/Angus and Angus Bull Sale, Monday March 11, 2024, at Johnstone Auction Mart, Moose Jaw, Saskatchewan. Hosted by Curtis Simmentals with Edwards Angus and Kindred Spirit Cattle, this annual event has been a source for purebred breeders and commercial producers to select and acquire value added sires for their programs.

"What a lineup of money-makers for you to go through!"

Simmentals -red- black - baldy- blaze - fullblood - Angus and Sim-Angus yearlings and twos. Your hosts present the strongest offering to date. The Curtis bulls are uniform in type from end to end, tons of muscle and performance, big weaning weights, hair, and testicles. The first sons of "Walk the Line" are wide topped, extreme in body length and high in performance. 'SVS Betts' has become a star and foundation sire in the program through his consistent predictable production. The unsung hero in this program is "Kill Switch" we all remember how large that investment was... well "Kill Switch" is a maternal master. As you scan through this catalogue, check to see how many of the bulls in the sale are out of his daughters and his sons are darn good! That strong maternal influence is bred into the sons. The "Blue Chips" have the money stripe, The "Triumphs" with their low birth weights are very uniform in shape and kind, while the "Bravos" are low birth weight F-1's out of first calf heifers.

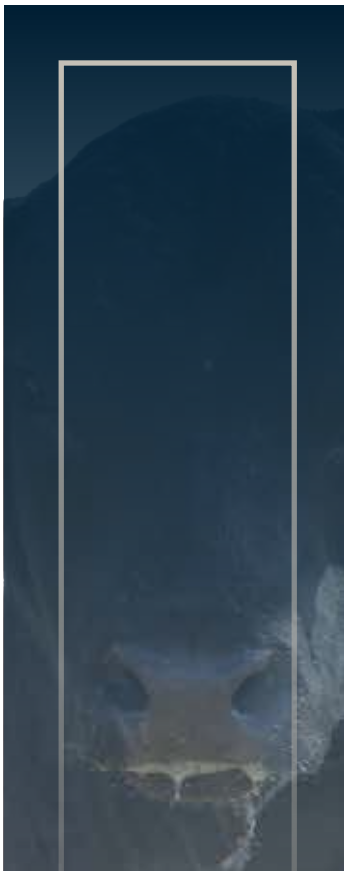

The Polled Fullblood's presented by Kindred Spirit add a fresh dimension genetically and phenotypically. These bulls are rugged, stout and can service bigger cows and add pounds at weaning that in today's market can mean a lot of money,

The Angus section presented by Laird Edwards is a combination of calving ease and performance. Genetically, the sires represented are breed leaders throughout North America. The Angus cow is still the "Queen of the Pasture" and remember that one half of the calf crop is female and will be slated for your replacement pastures. The beauty of the Edwards offering is they are high in performance values.

Feel free to stop by any of these breeding operations and preview the bulls and see their mothers or just give them a call to discuss the bulls and all options.

Plan to be with us on March 11th in person, on the phone or online., it will be well worth your day in Moose Jaw. Do not hesitate to give any of us at T Bar a call as we can assist you with your purchases in a professional and confidential manner.

On behalf of Curtis Simmentals we would like to welcome everyone to the 2024 South Sask Simmental, SimAngus, and Angus Bull Sale. We would like to start off by thanking everyone who attended last year's sale, from our repeat customers, new customers, bidders, buyers, as well as anyone who has shown interest over the year. A big thank you goes out to the crew at T Bar C, DLMS for their services and Johnstone Auction Mart. Lastly, thank you to our crew at home and everyone who has helped out through out the year, we appreciate the continued support in helping make this day possible.

This year we have a very strong set of bulls from front to back to fulfill all needs of producers. Solid Reds, Red Baldies, Blacks, Black Baldies, as well as the SimAngus bulls. The bulls are full of mass, meat, soundness, testicles, hair, docile and backed by our hard working functional females from the top of our herd. The bulls were raised on tame hay south of the yard for the first couple of months, then moved to the valley on native pasture for the rest of summer and into the fall until being weaned. The bulls are put on creep in mid to late August until weaned in October. Once weaned the bulls are on our best quality hay, free choice and 16% bull ration pellet where we get them up to 12 pounds a day and maintain that weight through the winter months. This year, through AI, we were able to source some new genetics for our herd. Sons will sell from Walk The Line, Betts, Kill Switch, Brisk, Top Tier, Red Wave, Poker Face and a Blue Chip son for the red and black, Reputation for the lone full blood and Triumph and a Bravo son for the half bloods. We are very pleased with these sires and what they have done for our herd. If you have any questions or concerns about the offering feel free to give Barry or myself (Landon) a call. We look forward to seeing you all sale day.

Welcome to the 2024 edition of the South Sask Simmental and Angus bull sale. I would like to thank you for your interest in our program and taking the time to go through the catalogue. I am proud of the bulls I have put together for this year's sale. I think they have a lot to offer, everything from power and performance bulls, to maternal traits, to a wide variety of calving ease bulls. They have been fed a high oat and dry hay ration to promote growth and longevity. Feel free to come and have a look at the bulls anytime before the sale. If you have any questions regarding the bulls don't hesitate to give me a call. I look forward to discussing them with you to help your decision making easier for you. Hope to see you at the sale.

Welcome to the 2024 South Sask Bull sale! We'd like to extend a thank you to all the buyers and bidders from last year's sale. We really appreciate your support for our program. We are very excited to be back for another year selling with this group of excellent breeders. If you are new to our program, we breed 100% Fleckvieh and Fullblood Simmental focusing on producing performance driven polled herd sires.

We are very pleased to offer you this pen of bulls who are backed by powerful Fleckvieh cow families and the top genetics in our program. Our focus has always been on quality over quantity, which is why we cull hard. Our offering consists of hetero-polled and homo-polled yearlings with lots of pigment and consistent performance and two virgin 2-year-old 'Helios' sons. We've added 2-year-olds to our program at the request of you as the buyer as they can cover more cows with that little extra maturity. Don't hesitate to reach out prior to sale day to chat or set up a viewing of the bulls. We look forward to chatting with you.

Win a \$2000 Sale Credit!

Purchase a bull from any current Saskatchewan Simmental member and when the registration papers are transferred your name is entered to win a \$2000 sale credit! The draw will be made at the SSA's annual general meeting in July and the lucky winner will have one year to use the credit at any public auction or private sale on bulls or females purchased from any current SSA member.

A real dark red sale feature bull. 11L has been a standout from the start he's real long bodied, smooth shouldered, deep quartered, big nutted, and has that herd bull look to him. This is the first calf crop for Walk The Line offspring and a new blood line into the herd. The bulls are very good, but I think the females are the icing on the cake as we had more females than bulls off him and they are looking the part, can't wait to get them into production. 11L dam is a real moderate red baldy young female that did an impressive job on this guy. Last year her half blood bull was the high selling half blood. 72H is a very sound awesome footed female with a perfect udder who is out doing herself and has a lot of years left in her as 11L is just her second calf.

A real good solid red, square made Walk The Line son. He's bold ribbed, big square-hipped, long bodied, smooth made and developing into a good young herd sire. His dam has been a good producing Sheriff daughter for use. She is solid red, sound, big bodied, super feminine and has a beautiful udder. 25L being out of a Sheriff daughter will have some calving ease built into him coming from dam and sire as the Walk The Line calves have come nice and moderate in birth weight with a lot of good about them.

What can we say about the Betts x Kill Switch combo other than it just works every time. We have sold several sons through this sale now to this matting with very good success and the females are stand outs as well. 17L has had that herd bull look to him from a very young age and has grown to be one of the top bulls we have raised if not the best. He's so soft made, big ribbed, super sound, and good footed. Has a wicked hair coat, big nutted, dark red, big quarter hipped and topped, he's really a bull that is hard to fault. We can't say enough about the Kill Switch females and what they have done for us raising these good quality bulls to sell every year. His dam is no different as she did an exceptional job. 92G is a solid black female who is deep ribbed feminine good footed very sound with loads of milk while still maintaining the beautiful Kill Switch udders. Be sure to check this guy out and he will catch your eye.

A real moderate direct son of Kill Switch. 28L is your typical Kill Switch son sound made, loads of good hair, deep bodied, eye appealing, and big nuted. 28L would rank very high among the Kill Switch sons we have raised and just might be the best one yet. He's smooth made moderate framed, athletic in his movement, and has always stood out from a young age in the pasture checks all summer. The best part might be his To The Max dam as they have been no slouches in our program and what they have done for us. 27H is a dark cherry red, beautiful female that did her job on this guy just being her second calf. She's long bodied, sound, deep ribbed, and beautifully uttered. 28L sons will be great but I think his females will be even better.

The combo of Betts x Kill Switch has worked so great for us, what better way than to do Kill Switch on the Betts daughter. We have several Betts daughters milking now and they are just starting to make their mark in our herd. 87L is a long bodied, sound made, clean through his lines individual. He's awesome haired, deep sided, big quartered and gets out and moves. His dam was a stand out as a calf and has grown out to be an awesome young cow. She's moderate framed, deep bodied, sound, and has a picture-perfect udder. Put that in with Kill Switch I'd be retaining every female off this good young herd sire.

Another stand out solid red Kill Switch son. This time out of a beautiful Captain Morgan daughter. 112L is moderate framed, deep ribbed, sound made, and big nutted. We AI'd to Captain Morgan for one year and got a few females that we retained in the herd who are now producing good males and females for us. 112L dam is one of my favourite cows on the farm. She is solid black and has that real brood cow look to her. 75G is long spined, deep sided, super sound, and awesome uddered. Again, another bull that I would highly recommend keeping every female off him.

ADJ YW: 1251 lbs | HOMOZYGOUS POLLED HETEROZYGOUS BLACK

A real stand out, stylish, half blood out of our walking Bravo son. This young herd sire has been a stand out from a young age and a personal favourite. Wicked hair coat, smooth made, moderate, deep ribbed, big square hip, and sound structured with a good foot under him. He came small and grew. The best part about this bull is his dam. 13J is a real feminine, broody Betts daughter with a perfect udder under her.

Heteropolled Dilution free Kronos comes from a flush between 'Honey' and 'Helios.' Honey is the type of cow you build a program around. She goes back to a fantastic Anchor D cow and FGAF Radioactive and has already made her mark on our herd. Her first calf was our high selling open heifer a few years ago going to Bonchuk Farms. Kronos has really developed into solid herd sire prospect. He was raised by a smaller recip cow but his genetics have really taken over to make him a truly solid bull.

KINDRED SPIRIT CATTLE

NOTES:

It is a pleasure working with the Curtis family of Curtis Simmentals on a nutrition program for their bulls. Curtis Simmentals utilize high-quality genetics and produce elite bulls for both purebred and commercial cattlemen.

The bulls are fed high-quality forages combined with a protein and energy source. The high-protein pellet is fed to promote lean muscle growth and assist the bulls in developing their genetic potential.

The protein supplement contains an organic mineral package to ensure proper immune function and fertility and includes a probiotic for gut health and improved efficiency. The bull ration is tailored to the bull's growth patterns throughout the winter and is designed with longevity in mind.

If you have any questions about the nutrition of the sale bulls, please feel free to call. Good luck on sale day!

TERMS & CONDITIONS

TERMS...

The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance, unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Current exchange rates will be announced sale day. All monies are in Canadian funds.

BIDDING...

Each animal will sell to the highest bidder...no by-bidding will be permitted. Disputes - Bidding will be reopened between the parties involved in dispute. If no further bidding is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision on all disputes will be final.

ANNOUNCEMENTS...

All announcements made from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay close attention to such disclosures.

BREEDER'S GUARANTEE...

All bulls sold are guaranteed breeders by the owners. We guarantee to provide you with a sound breeding bull. Should any bull fail to be an unsatisfactory breeder, he will be replaced with a bull of equal value or a credit will be given toward the purchase of another bull. If you have a problem with your bull please notify us immediately. Under no circumstances will the seller be liable for more than the purchase price of the animal.

EXCEPTION GUARANTEE...

In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, this guarantee shall be null and void.

CERTIFICATE OF REGISTRATION...

Each animal will carry papers issued by the Canadian Simmental Association or Canadian Angus Association. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

PEDIGREE ESTIMATES...

Pedigree Estimates (PE) are created on the projected mating of the animal's sire and dam based on averages of the two, creating estimated values that do not hold the same accuracy of actual EPDs issued from the association and should be used as such.

IN-HERD SEMEN...

The South Sask consignors reserve the right to collect semen on any bull sold through this sale. The semen collection will be at the South Sask consignor's expense and the buyer's convenience. Any semen collected will be for South Sask consignors in herd use only.

LIABILITIES...

All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability, legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. (2013) Ltd. is acting only as a medium between buyer and seller and is not responsible for any failure on the part of either party to live up to his obligations. Neither does T Bar C Cattle Co. (2013) Ltd. assume any financial obligations to collect or enforce collection of any monies between parties and any legal action that may in exceptional cases be taken must be between the buyer and the seller. T Bar C Cattle Co. (2013) Ltd. assumes no responsibility for any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

RIGHTS AND OBLIGATIONS...

The above terms and conditions of the sale shall constitute a contract between the buyer and seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.

PHONE, MAIL, WIRE BIDS...

Bidders unable to attend the sale may phone, mail or wire their bids and instructions to the sale managers, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

DELIVERY...

We will assist in arranging transportation wherever possible. Bulls will be delivered by April 30th unless prior arrangements have been made. Delivery will be at buyer's risk and seller's convenience. Each animal becomes the risk of the purchaser as soon as sold. \$100 rebate on bulls taken home sale day. Bull must be insured by buyer.

INSURANCE...

Will be available sale day. All bulls returning back to consignor's farms must be fully insured. We strongly recommend that insurance is purchased for full value.

ERRORS...

All announcements at sale time, written or oral, supercede any written material in the catalogue.

Thank you to the 2023 **SOUTHSASK** Buyers
