Sales Management Comments

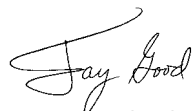

Simmsational is an iconic event in the registered Simmental world and highly touted among mutually interested conversationalists. The repertoire of this event that has existed for over 40 years is well respected nationally.

Most of you realize that 10 bred heifers carrying an "IPU" tattoo will headline this event. Yes, I mean the annual LaBatte Simmentals Mini-Production Sale! Nicely adding to the high quality Black & Red purebred heifers are two Fullblood females that will be as good as we see all through the fall sale season!

I use the term "headline" in the previous paragraph, but what we also know is that cattle are offered in this sale from some of the most reputable Canadian Simmental breeding programs in Central and Western Saskatchewan! These breeders can all proudly pat themselves on the back for the good job they've done creating, developing and maintaining a solid bull market. The relative point here is, they do this with females like the ones they are offering for sale here. The investment opportunity at Simmsational has always been solid and this will be the same in 2018.

Please join us at Johnstone's Auction Mart, 4 miles West of the city of Moose Jaw for this great sale. If you can't make it personally, please don't hesitate to call on us to handle your bidding needs. Simply call any of our cell phones listed to access our industry-leading, highly-trusted, order buying services.

See you in Moose Jaw

Welcome to Simmsational 2018 at Johnstone Auction Mart, Moose Jaw, SK on Thursday, December 6th. Forty one and counting! Wow! Time flies. This sale has been one of the longest running, if not the longest, consignment sale in Canada. And one of the best, as the quality just gets better and better. We've had some great consignors over the years and some great new ones these past few years. Besides the offering being really good, the consignors are even better and it's a fun sale to take part in and be at.

We are consigning our usual ten bred heifers again this year, right from the top of our pen. Headed by four Red Deputy red heifers, all out of first calf heifers. Deputy calved very well for us, but he's one of the rare calving ease bulls that also sires power and performance. His first son to sell, IPU LIEUTENANT 24E, was a deep, thick, powerful calf that was purchased at our 2018 bull sale for \$52,000 by Hoegl Livestock and Bohrsen Marketing. We think Deputy's heifers are going to be superior females also. They're easy keeping, broody, setting up beautiful udders and are the right kind. Our four black heifers are our most consistent to date, headed by a 56U daughter that is a full sister to Red Deputy's mother, two Priority daughters that are real eye catchers and a big, powerful Spark Plug daughter out of a 56U dam. The two fullblood heifers are definitely the best we have ever offered at Simmsational. They are three quarter sisters sired by FGAF French Attack 010C, who is probably the best and most consistent fullblood bull we have ever used. These heifers are all A.I. bred in April and have no exposures.

Come and join us at Johnstone Auction Mart on Thursday, December 6th for the 41st Simmsational Sale. There will be some great cattle on offer, good hospitality, food, fun and Christmas Spirit. From all of us at LaBatte Simmentals we wish you a very Merry Christmas and a Happy and Prosperous New Year.

Barry

P.S. Grandkids are growing up way too quick. Our oldest has just turned fifteen in November and our youngest is eight already. They're all healthy and full of energy. They're all into sports – hockey, karate, volleyball, basketball, gymnastics, swimming and the boys are all in 4-H. They keep their parents busy going up and down the road. We're so lucky to have them all living close and they all go to school in Gladmar.

Bred Apr 5 to FGAF Guerrero 810Y P748277. No exposure.

Full Fleckvieh. This could be the best fullblood female we've ever sold. She's dark cherry red, goggle-eyed, has tons of capacity and volume, is setting up a beautiful udder and has style to burn. Sired by FGAF French Attack, the most consistent Fleckvieh bull we've ever used. Anchor D Ranch purchased him from the Gagnons in Quebec as the high seller of their sale. I was lucky enough to get ahold of Danny that day and purchase a semen pack in him. Whether heifers or bulls, his progeny are at the top of the pen. IPU Renee 41E's polled Eclectic dam is really a beautiful cow and has a super polled full sister to her in the keeper pen. Bred early to the polled Full Fleck, easy calving FGAF Guerrero should be a very exciting mating. We think this great female has a bright future ahead of her.

Renee 45E is a three quarter sister to Renee 41E. Both sired by French Attack and both out of polled Eclectic daughters. 45E in her own right is an outstanding heifer also. Red, big goggles, deep sided and setting up a really good udder with pigment on her teats. These are our top two fullblood bred heifers and we're pretty proud to offer them at the 41st Simmsational Sale. 45E too is bred early to the polled Guerrero bull. What would a polled heifer or bull be worth out of Renee 45E. This heifer has brood cow written all over her.

Bred Apr 7 to IPU 2Y Dillinger 80B PG1128510. No exposure.

A super dark red, deep sided, broody Red Deputy daughter out of the Pocahontas 68M cow family. Her mother is the twin full sister to Pocahontas 61C who was our high selling heifer in the 2016 Simmsational Sale, selling to Beechinor Bros and Red Top Simmentals for \$29,000. The grandmother to 15E produced a \$25,000 bred heifer in the 2015 sale selling to Wilson Stock Farms. The Pocahontas 68M cow family is probably the best producing family we've ever had, followed by Pocahontas 52N, 68M's full sister. This powerful, super uddered Deputy daughter is mated to 52N's grandson, IPU 2Y Dillinger 80B early in April. So a little line breeding with the resulting progeny having both 68M and 52N in the pedigree. Dillinger is a great easy calver, blood red and smooth made. He sired the \$28,000 IPU Dillinger 14E bull that sold in our spring bull sale to Lockhart Valley Simmentals from Rimbey, AB. We think this mating should result in a very exciting calf whether a heifer or bull. Pocahontas 15E is homo polled by parentage as an added bonus.

Bred Apr 4 to Black Gold Loaded Up 71E PG1221918. No exposure.

Again, another dark red, deep, broody, Red Deputy daughter going back to another great cow family, Pocahontas 105L. Those Hart Red Chief cows were the best red cows we ever had. If only we had some good semen left on him we would still be making daughters of his. We only have a few straws of very, very marginal semen on him and haven't tried it in years. The 105L cow was a cherry dark red, power cow with a super udder. She was sixteen when we sold her last fall. We think 42E could follow in her footsteps; dark red, powerful, setting up a nice udder and mated to the exciting \$40,000 Black Gold Loaded Up bull that Ultra Livestock and Hay Valley Ranches purchased this spring from Black Gold. We were the runner up bidder on him and feel fortunate that Riley and Trish gave us the opportunity to purchase a semen pack on him, the only one sold.

We can't say enough good things about the Red Deputy daughters. They're very broody, structurally sound and the udders are going to be very good. Red Deputy calved well for us, left us some very good bull calves also, headed by IPU Lieutenant 24E. Like we did a couple of years ago at Simmsational when we offered all IPU Red Zone 16A daughters in our red division, this year we are offering all IPU Red Deputy 25C daughters, a group we are very proud of and can't wait to calve his daughters we have at home. This very broody, excellent uddered heifer again goes back to 68M and is bred early to Loaded Up.

This is Hayley's heifer and she is a good one. Her dam is one of my favorite Red Zone daughters that has a beautiful udder, is smooth made and very eye appealing. Her great grandmother, the Mia 119S cow, was the first heifer that Hayley purchased as her foundation cow. 170E's grandmother, Eloise 149X, was my favorite Accelerator daughter and, unfortunately we lost her, but the Red Zone 31C cow is an exceptional female to replace her. This heifer, Eloise 170E, is going to make a really good female and bred again to Loaded Up. She also is homo polled by parentage.

Bred Apr 24 to Skors High Roller 34C BPG1152822. No exposure.

An exciting Priority 3C daughter out of a very good Lotto cow that produced the \$42,000 El Tigre son, IPU Resolve 114D, that sold in our 2017 bull sale to Deeg Simmentals and Muirhead Cattle Co. She again has a really good bull calf in our black pen this year. These Priority daughters are going to make exceptional cows. They're structurally very good, angular, good uddered and very eye appealing. This heifer has a lot going for her. She is homo polled by parentage, has a great set of EPDs (in the top 35% or better in 11 of 13 categories) and is bred to the calving ease bull, Skors High Roller 34C. This is definitely a brood cow in the making.

No, the camera isn't out of focus. This heifer is as long as a freight train, as is her mother and grandmother. They say "Length makes the difference" and if that saying is true this heifer has the "Difference". This heifer is all about our black program - Priority - El Tigre - Liner 56U. She's very stylish, has a beautiful front end, a little white blaze on her face, good udder and has the length and body to go with it. If we were into the show ring this might be the one we would choose to show. She'd be a very competitive 2 year old cow/calf pair in next year's shows. She's homo black by parentage and we think she's homo good.

A true sale feature here in this exceptional Springcreek Liner 56U daughter. She's a full sister to the mother of IPU Red Deputy 25C only this time she comes in black. We also have another full sister in our herd, IPU 75B. Her grandmother, the Black Desi 9154W cow, has been in our flush program. We flushed her four times now to Liner 56U, Captain Scream, El Tigre and Wheatland Bentley 630D. The Desi 135E heifer is feminine, long, very attractive, homo polled and setting up a great udder. Bred to the red Black Gold Loaded Up bull should be very exciting, especially if it comes in black. With Springcreek Liner 56U, the Desi cow family and the famous RF Certainly Flirtin 532C cow in the resulting calf's pedigree her calf should have a bright future.

A powerful Spark Plug heifer out of a beautiful Springcreek Liner 56U daughter that we sold as an open heifer to Southpaw Simmentals and then bought her back as a bred heifer from Ron and Tammy. She's done great things for us as she has daughters working at Albrecht Farms, AB and KT Ranches, BC and two excellent daughters working in our herd, a Lotto daughter and an El Tigre daughter and a good El Tigre son in the bull pen this year. She's bred mid April to Skors High Roller, the calving ease bull Robb Farms purchased from Skor Simmentals that has turned out really well for them with excellent progeny and calving ease as a bonus. This outcross, broody, powerful heifer has "raising herdsires" written all over her.

Homo Polled. It just seems our offering would not be complete without a Captain Morgan daughter but they are real hard to part with as they make outstanding cows. 2E will be no exception, as she is a transplant daughter of our Destiny 102N cow. 102N has excelled with everything she was mated to but really hit a home run with Captain Morgan. We have sold many sons into some very good programs. A full sister to 2E sold in Friday Night Lights to Triangle Stock Farms and another topped our Simmsational offering in 2016 to Russylvia & Westgold. 2E is a sweetheart of a heifer, deep, and broody. She is setting up for a super udder. 2E is mated to none other then Mader Walk This Way 224B, the Cobra son that has done an outstanding job here. His calves come easy and get up quick and grow. A very exciting mating.

Homozygous Polled. SVS Blk Honey 739E is a true beef female that is bred to produce herd bulls. She is very well balanced, super stout made, structurally sound and has excellent feet. 739E is a daughter of our herd sire, Walk This Way, who has done a tremendous job for us. He is a true female maker and 739E is one of his best! Her mating to WHL Gold Key 1619D will complement her perfectly. Honey 739E is the front pasture kind.

Homo Polled. Diva is again from our Destiny 102N cow family. A maternal sister in last year's sale sold to City View Simmentals. If you are looking to add some depth to your program take one of these Gambino females home. Diva is a female that has as much dimension as you will find. When you get behind her you will see a wide topped heifer that carries that stoutness right back to the pins and down her quarter. Her mating to the exciting calving ease Shear Force son Gold Key will be something to look forward to next calving season.

Kananaskis 676D is an off age heifer that is royally bred with a very bright future. She is a powerful, complete made female that has a tremendous pedigree. The Blueprint females are great young cows with exceptional udders. 947Z is a past high seller from Ferme Gagnon that was Reserve Champion Female in Louisville as a bred heifer. Kananaskis is bred early to Guerrero which we feel will be very exciting.

HOMO POLLED. The top and bottom side of this pedigree are tried and proven! We sold one of our favorite Capone breeds last fall at Friday Night Lights to the Hogels and Richards. She had an impressive Magnum bull calf that weighed in heavy at weaning time. The Capone females that we calved have great udder structure and weaned off some impressive calves. 111E herself is a gem to look at, dark red and real quiet. Her grandam, old 139P, is still in production, so that says something about the cow family. She will be a front runner come sale day and to be honest, her picture doesn't do her justice.

HOMO POLLED. We haven't parted with very many females that stem from the 2P cow family. Why you ask? They are just too darn good! The power that a cow family can have on a producer's herd is huge. We believe the Westcott x 2P cow family makes for a highly marketable female. 68E is feminine and stylish and is sure to have an impressive udder. 2P herself is still kicking and will be calving again at 15 years of age. We promise you that her udder is every bit as good as it was in her prime.

This is a real special female, definitely one we should never sell but if you don't bring the good ones to this sale you might as well stay home. 98E has been a standout since she was a young calf as have all the females in her pedigree for many generations back. She is so refined in her head and proportionate in her front end with her back 2/3 huge and tanky! Her Seismic dam is patterned the same way and is highly maternal as are all the Seismic females. The older they get, the better they become. Missile we don't need to say much about except to say that his progeny have exceeded our expectations. The females are awesome and if you are not on the Missile train you better jump on soon before you get left in the dust! We will be retaining the right to a flush on this female.

This is a real nice blaze faced, sharp fronted female with a beautiful peak polled head. When you look at her she just looks like she will make a super young cow. All our young Red Zone cows are making great females – they are so attractive and raise huge calves. Don Farrell bought X-T Red Carmine 100C, also a Red Zone daughter, out of this sale in 2015 as one of the featured red heifers to sell that fall. Has she ever turned some heads in Ontario with the job she has done! Her grand dam on the bottom side, X-T Miss Doc 36H is a Red Doc daughter who had a milk EPD of 31.7 – huge number for a red factor cow. She raised many top end progeny and had a great influence on our cow herd.

Welcome to our part of the sale. Our females are all bred to our own herd sires. We believe the consistency of bigger sire groups is important in developing a consistent group of brood cows as well as sale bulls in the spring. Our cows go out to grass mid April and come home mid November so AI'ing is not an option for us. Exact observed breedings are hit and miss when the cows are at pasture because our attention has then turned to seeding. We hope you will find something that suits you in our offering. This is our 26th sale and we look forward to seeing many of the same faces as well as some new ones. In closing, I want to wish you a Merry Christmas and health and happiness in 2019.

NLC GOOD A NUFF 33G
LFE COCOA 216N

A young female that catches your eye every time you see her. Style, capacity and length are words to describe her. Her mother was purchased at Simmsational from 3D and her 2018 calf is at the top of our replacements. 34E should be a consistent producer just like her momma.

I don't think they come much better....you tell me. She has donor potential written all over her. Her mother was our favorite female at the Boynecrest dispersal and has gone on to be a top producer for us. She is definitely one of the best we have ever brought to town.

Here are a pair of females we are very excited about, Captain Black daughters going back to two of our very best cow families. The tremendous depth of body, spring of rib, eye appeal and structure that the Captain Black calves exhibit is truly impressive. All reports say they are making awesome young females, so these two will be ones to build around. This heifer has stood out from a young age, as do all of the females that stem from the 135U cow. We have five direct daughters of the 135U female, all possessing ideal structure and udder quality. Look for this female to become a cornerstone in your program.

This female is a prime example of what we strive to produce, and she ranks as one of the best we have ever raised. She exhibits tremendous length, capacity, eye appeal and balance. She is stout from every angle, yet feminine through the front third. This female is backed by one of our top cow families, going back to the MRL 804W cow. Year after year some of the top bull calves in our program are sons or grandsons of this female. This cow family not only adds quality but also an outcross pedigree to this outstanding package. The quality and consistency has been proven many times over, and the potential of this female is endless!

A female we would definitely consider a sale feature for a couple reasons. Her dam, 909Y, has been a very consistent producer since we acquired her. 14E is attractive made through the head and neck and clean in her lines. A female that catches your eye with her bold rib shape and power. Bred to Springcreek Denali, a high seller in the 2018 Pursuit of Perfection Bull Sale. With top-end producers behind both 14E and Denali, that calf should not disappoint! Check out our Facebook page "Hilltop Holdings" for videos. Homo polled by pedigree.

It took a little convincing for me to consign this girl, but I felt she would be a great complement to our 14E heifer. She has a ton of middle to her- with that desired extra length. 15E's mother will be coming 10 and has a great udder on her yet. We can't say enough about the group of yearling Riddler females that we are offering this fall at various sales! I am confident that she can produce some fancy females and high quality herd sires. Check out our Facebook page "Hilltop Holdings" for videos. Homo polled by pedigree.

East Poplar Sasha 713E is a stylish heifer that catches your eye while she's on the move. When you get behind this heifer you will appreciate the width of her hip which she carries across her top. She transitions nicely into a smooth shoulder and is sure to add calving ease coming off the highly proven WFL Absolute 51Y and out of a first calf heifer. 713E is bred early to the \$57,000 calving ease specialist LFE Night Hawk 3013D.

We can't say enough about these Chrome daughters. They stand out from birth and by weaning they are guaranteed to be the heaviest in the pen. Last year at Simmsational, our Chrome heifer sold to LaBatte Simmentals. This spring, 578B's bull calf (sired by Vision) was sold to Wheatland Cattle Co.

Terms & Conditions

TERMS - The terms of the sale are cash, cheque, VISA, Mastercard, or Interac, payable at par at sale location. There will be a 3% administration fee on all VISA or Mastercard purchases applied to the buyer's invoice. The right of property shall not pass until after settlement is made. Transcon Livestock Corp. reserves the right to require a certified cheque as settlement before releasing any sale cattle. Should any purchaser fail to settle for his purchase Transcon Livestock Corp. reserves full power to resell the animal to the best advantage either publicly or privately, without further notice. Any loss arising from such resale together with keep and all other expenses shall be payable by the defaulter. All settlements must be made with the clerks of the sale before any cattle will be released.

BID - Every animal consigned to the sale must be sold by auction. No private sales will be allowed except as otherwise provided for in the terms and conditions. No by-bidding will be permitted. Each animal will be sold to the highest bidder.

SALES TAXES - Applicable sales taxes will be charged on semen, embryos and trucking fees (if listed), respective to the home province of the buyer, not the seller.

DISPUTES - In cases of disputes, bidding will be reopened between the parties involved. If no further bid is made the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

PURCHASER'S RISK - Each animal becomes the risk of the purchaser as soon as sold. Animals will be cared for at the purchaser's risk for a reasonable length of time.

INFORMATION SUPPLIED - The information contained in this catalog is believed to be true and accurate. However, the information has been supplied by the seller and neither Transcon Livestock Corp. or Jamesway Enterprises Ltd. assume any responsibility if the information supplied is not accurate.

CATTLE PICTURES - The images in this catalog are believed to be accurate representations of the individual animals. Transcon Livestock Corp. and Jamesway Enterprises Ltd. assume no responsibility if the images as received have been altered.

ANNOUNCEMENTS from the auction block will take precedence over the printed matter in the catalog. Buyers are therefore cautioned to pay attention to any such announcements.

CERTIFICATE OF REGISTRY - A registration/recording certificate issued by the applicable breed association and duly transferred will be furnished to the buyer of each animal after settlement has been made. It is the responsibility of the buyer to determine the acceptance of this certificate in any other association.

SHIPPING - Assistance will be given in making shipment after the sale but no risk is assumed by the Sales Management or Seller. Expenses incurred are the responsibility of the purchaser. Purchasers are requested to furnish shipping instructions when making settlement.

BREEDERS GUARANTEE - As per applicable Canadian Breed Association Breeding Guarantee guidelines. Copies are available at the sale settlement desk to be picked up by the buyer at any time. In no event shall the seller be responsible for reimbursing more than the purchase price.

EXCEPTION TO GUARANTEE - In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, the guarantee shall be null and void.

HEALTH - It is the buyer's responsibility to determine health requirements for importing any animal into his province or state. Transcon Livestock Corp. assumes no responsibility for the health status of any animal in the sale.

ACCIDENTS - Although every precaution will be taken to protect the safety and comfort of buyers, neither the Sales Management, auctioneer, consignors. or Association assumes any responsibility in this matter and disclaims any liability legal or otherwise in the event of accident or loss of property.

RIGHTS AND OBLIGATIONS - The above terms and conditions of the sale shall constitute a contract between the buyer and the seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.

TRANSCON LIVESTOCK CORP. IS AGENT ONLY - It is to be clearly understood that Transcon Livestock Corp. is only acting as a medium between buyer and seller and is not in any way responsible for any failure on the part of either party to live up to his obligations, neither does Transcon Livestock Corp. assume any financial obligations to collect or enforce collection of any monies between parties, and any legal action that may, in exceptional cases, be taken, must be between buyer and seller.

The Auctioneer shall have the right to refuse bids from anyone who has a previous record of default in payment or who has not made proper credit clearance prior to the sale with the owner or Sale Managers.
