***Sales Management Comments***

Welcome to the 44th annual Simmsational Simmental Sale. As times change in this crazy world we live in right now one thing that never seems to change is the commitment from the breeders and the quality of Simmental cattle here in Moose Jaw.

Congratulations to the long time breeding establishments who have been a part of this great sale for many years. We welcome the Simmental programs that are consigning to Simmsational for the first time. They have opened up their herds and are bringing their very best. This is a great mix of livestock breeders and an exceptional set of cattle on offer.

The POWERFUL set of bred heifers are second to none. Females that are a great representation of the Simmental breed. Females that could very well be herdbuilders and foundation genetics in the industry. The select group of open heifers is equally as powerful and will definitely have their place in the industry as they mature into momma cows.

So whether it's a bred heifer or a fancy open heifer you are searching for, Simmsational 2021 has it. The QUALITY runs high and is second to none. These cattle are right for the times and right for the industry.

On behalf of the team at Transcon and the group of consignors, we invite you to Moose Jaw on Thursday December 9th and be a part of Simmsational 2021.

In the event you are unable to attend but would like to purchase cattle, give one of us a call on the Transcon Team and we will go over the cattle with you and answer any questions you have. You can purchase through our highly trusted and confidential order buying service.

**Videos of sale animals available on our website.**

Welcome to Simmsational 2021 at Johnstone Auction Mart, Moose Jaw, SK on Thursday, December 9th – the 44th edition. How time flies as it just seems like I was writing footnotes for the 2020 sale and here we are already writing the 2021 ones. It's been again a different year with Covid still hanging around, drought, and scraping up enough feed, but everyone is healthy and well at our place and our family's. That is the most important thing. Calf prices remain fairly strong and our grain crops were not great but with the record prices will be one of our best years. And again, food has become the world's greatest commodity and the world is realizing its importance.

Again we are consigning ten bred heifers to Simmsational and they are maybe our most consistent group to date. Lead by four outstanding fullbloods, two are polled and two are super French Attack daughters. The blacks consigned are two baldy super Bentley daughters and a Liner 56U transplant female. The reds are consistent and good. These heifers are all bred to calving ease bulls and have no exposure.

Come and join us at the Johnstone Auction Mart on Thursday, December 9th for the 44th Simmsational sale. There will be some great cattle on offer by all the consignors. The sale will also be carried on DLMS. If you can't make it to the sale, call the consignors or sales management.

From all of us at LaBatte Simmentals we wish you a very Merry Christmas and a Happy New Year filled with good health and happiness.

*Barry*

P.S. Grandkids are all doing great. They're healthy and full of energy. There's school sports this year so that keeps them busy and Zayne is playing hockey tonight as I write these footnotes. Grandma and Grandpa are going to watch him play. Emry is enjoying our new horse and the girls can't wait for basketball to start. Brodyn is busy getting Simmsational heifers and his Agribition heifer ready. We are so lucky to have our grandkids so close to us.

Bred Apr 2 to Anchor D Outlook 255D 1219254. No exposure.

This is truly a sale feature. She's a French Attack daughter that shouldn't be leaving our place. She was only brought in three days before picturing as she was not intended to go to Simmsational. We had a problem with another heifer that was scheduled for Simmsational so we offered our best in 41H. This has been my favorite fullblood since she was a baby. Dark red, big goggles, pigmented teats, deep, very feminine and attractive – just a brood cow in the making. We sold a maternal sister, an Elevation daughter in last year's sale to Jake Bell, Ferme Forbell SENC from Quebec. They are very happy with her and I believe she's going into their donor program. We think this French Attack heifer has a great future ahead of her. These French Attack daughters are second to none. She is bred early to Outlook which should result in an outstanding calf whether a heifer or bull. We believe 41H will be a front pasture cow and eventually be in a donor program. She could quite possibly be the best fullblood female we've ever offered for sale.

**Bred April 27 to Fairview Philosophy 99E 1221002. No exposure.**

Another special heifer, a polled 100% Fleck heifer sired by the great Anchor "T" Legend 7H. It's very rare now to find Legend progeny. And polled and 100% Fleck is a bonus. We purchased her mother from Ferme Gagnon as a bred heifer and she was the high seller that year. She was carrying this great Legend female inside her. 2H is dark cherry red, very attractive and broody, smooth polled, setting up a really nice udder and has a super disposition. Bred to the Fairview Philosophy bull the resulting calf could be homo polled. Our Philosophy calves were born very easily this spring and are very saleable. We think there is a world of opportunity in this heifer and she has a great future ahead of her.

**Bred April 6 to Anchor D Outlook 255D 1219254. No exposure.**

A really attractive Sunny Valley Canon daughter that is polled-scurred, deep and angular, very nice fronted, and is going to make a really nice cow. These Canon females and bulls are turning out very good. He puts the polled heads on them all, and they have lots of substance, muscle and style. He himself is stylish and heavy muscled. We're really happy with our Anchor D Outlook calves. They come easy, are very dark red and pigmented, and have lots of style and substance. We think this mating with the Canon daughter and Outlook should work very well.

**Bred May 5 to Fairview Philosophy 99E 1221002. No exposure.**

Another French Attack daughter out of a really good young Crossroad Radium daughter. These French Attack females make excellent producing cows. They are great uddered, and have lots of volume and milk. Wish we had lots more of them. This 116H heifer is deep and angular with lots of pigment and is setting up an excellent udder. She's easy doing and very, very broody. I think a polled bull or heifer out of this mating should be very interesting and very marketable.

**Bred April 3 to WLB Top Tier 456G 1288193. No exposure.**

A cherry, dark red daughter of the Black Gold Approval 71E bull and a granddaughter of the great Pocahontas 68M cow. Pocahontas 68M, Pocahontas 52N, Pocahontas 105L and Pocahontas 2Y have been the core and success of our red Simmental program. They are all Hart Red Chief daughters that have been the backbone of our red cattle. They are producers! The mother of 34H is a Captain Scream daughter of 68M. We have four full sisters, all F's, and all producers. 34H should carry on the legacy of the Pocahontas families. She is cherry, cherry dark red, very deep bodied, feminine and is a brood cow in the making. Mated to the super baldy bull Top Tier should be very exciting.

**Bred April 4 to WLB Top Tier 456G 1288193. No exposure.**

Homo polled by parentage. It is a rarity that we are selling an IPU 2Y Dillinger 80B daughter and she's a good one. Right from a young age this heifer has been very good and is mothered by a very broody, moderate Captain Scream first calf heifer. There's a little bit of linebreeding here as you'll see the Pocahontas 52N, 105L and 2Y females back in the pedigree of this great heifer. What an exciting calf this should be sired by the heifer specialist Top Tier. He doesn't just calve good, his progeny are very good. Some of the best bulls and heifers in our pens are sired by him. Top Tier's mother was the high selling female at the great WLB Dispersal last year selling to Anchor D Simmentals. Ask Danny what he thinks of her. Add Top Tier's mother with the Pocahontas cow families and the results should be very interesting.

**Bred April 3 to WLB Top Tier 456G 1288193. No exposure.**

These Red Deputy females make very good cows. All the people who have them speak very highly of them. They are broody producers and are great uddered. This is Lynlee's heifer from a great old Mercedes cow. She was one of his original Simmentals that again goes back to a Hart Red Chief daughter. This heifer is really stylish, feminine, broody and structurally very sound. We like her a lot and mated to Top Tier, with a red baldy calf at side she would be very competitive in the show ring or just a good front pasture cow.

Homo polled by parentage. Again a special lot to start out our black section. A Springcreek Liner 56U daughter out of a blaze faced High Idle dam that ourselves and Circle 7 Ranch purchased out of the Friday Night Lights sale from Deeg Simmentals for \$32,000 where she was one of the feature lots. We bred her and IVF collected her resulting in five embryos and three full sister Liner 56U heifer calves were born. We sold one in the spring at our bull sale to Stephens Farms, have retained one, and are offering this beautiful 56U daughter in Simmsational 2021. I think the industry knows how good the Liner 56U daughters are and mothered by the exceptional Blue Moon cow, 90H should have a bright future.

**Bred April 17 to Skor's High Roller 34C 1152822. No exposure.**

A beautiful, thick made Wheatland Bentley daughter out of a black baldy Priority daughter whose full sister sold in our 2020 Bull Sale for \$30,000 to KT Ranches. The D Bar C Black Satin cow family has been very good for us in our black program. When we sold the old original Satin cow she was 12 or 13 years old and still had a perfect udder and she has passed that on to her daughters. This baldy Bentley heifer is an eye catcher, is thick made and easy doing, has a great cow family, and is mated early to the Skor's High Roller bull. We've been so impressed with the High Roller progeny we've seen around the country. At the WLB Dispersal last year, the High Roller group of bred heifers were exceptional and the high seller was a High Roller daughter. The 159H heifer will be homo polled tested by sale time.

**Bred April 13 to Skor's High Roller 34C 1152822. No exposure.**

This is the best set of black heifers we believe we've sold at Simmsational. These three heifers are like peas in a pod. If you were judging them, you could place them in any order and you wouldn't be wrong. Over the years we've become big believers in cow families. That's why we purchased the mother of this heifer from Greyledge Simmentals. We have always admired the X-T Uptopia cow family and her progeny. We finally had the luck to get one of her daughters and she has not disappointed. This beautiful Bentley daughter has always been one of our favorites. She's been a standout from a young age. She's thick, easy doing, very angular, broody and attractive – the kind we ourselves like to buy.

Here is a stylish made Night Hawk heifer who has really impressed us ever since she was a calf. She really catches your attention on the move, has a great disposition and has perfect goggle eyes as a bonus. She not only has a lot of hair, but a lot of great hair that makes me think she should have seen a show ring. Bred up early to the outcross True North bull should make for an exciting black baldy calf in January!

This is a heifer who we are sad to see go, but are proud to bring to town. 102H is a beautifully made Lieutenant daughter who has a lot to offer. She is the natural calf off our donor cow, Erixon Lady 38B, who we have flushed a few different ways and she consistently puts a tonne of body and rib into her progeny, but also a puppy dog attitude. This is a powerful heifer, but still maintains her femininity and balance. She looks to be setting down a beautiful udder and we feel she will make an impact on her new owner's herd.

If you like them deep bodied and broody take a look at this heifer! This Lieutenant daughter is a perfect example of why we continue to use him in our program. 1H comes from a long line of high production cows. Her dam, East Poplar 68M Showgirl 716E, is a beautiful, well balanced cow with a perfect udder. Her maternal granddam, Pocahontas 68M, has put multiple high selling daughters and granddaughters through this sale. Performance and predictability is built into this heifer.

This is a long bodied, easy fleshing female with a bit of Fullblood genetics on the bottom of her pedigree. 16H is sired by our walking herdsire, Sunny Valley Pride 36F, who is a maternal sibling to the bred heifer Libke's sold for \$12,000 in last year's Simmsational. We feel her mating to Black Gold Approval 71E will complement her nicely. We have used him on our heifers for a few years now and have been impressed with the combination of calving ease, growth and style he has put into his progeny.

Full Fleckvieh. Homo Polled. Non Diluter. 10J is a heifer we are excited to offer up this year. I could write a book about how much we like this heifer. Her mother, BEE Lila 452B, raised a high selling bred last year to Johnson Ranching. She entered our donor program this spring and we are anxiously awaiting more of her progeny. 10J's sire is a ALLM Colossal grandson that Glenn Norton selected for us from Oakview Simmentals in Manitoba. He has provided us with a nice group of calves and 10J is the first to be offered up for sale.

Homozygous polled. Dancer is a deep bodied, soggy middled, fancy performance female. She goes back to Hart Red Chief, Bodybuilder and Crosby on the bottom side. Penny 20W, her great granddam, came in with her 11th calf this fall and is bred back for a January calf again next year. Red Iron calves are outstanding and most of mine have gone through this sale. Dancer's dam, Kalea 95F, was shown at Agribition as a calf and stood 3rd in a very strong class.

Apple has been a stand out since birth. Soft sided, deep bodied, feminine and fancy, and she carries that money stripe. Her dam has put two females in herd, one heifer sold private treaty into a starter purebred herd and a female through this sale to LaBatte Simmentals. Out of my high selling bull in 2019, all his calves were outstanding. She goes back to Freedom, Stubby and Crosby. Her sire is a paternal sibling to the dam of Dancer 42H.

**Open.**

Homozygous Polled. Black Rust comes from a set of embryos that I bought out of the Agribition sale. She is an outstanding individual, big bodied, hairy, deep, feminine and thick. Her pedigree reads like a who's who of the Simmental breed. Structure, Cobra, Poker Face, Royal Red and Hoc Broker are bulls all close up in her pedigree, not to mention the dam of Captain Scream, RF Scream 215Z. All these heifers were deemed untouchable at the start of summer, but the inability to find relatively inexpensive feed has caused this opportunity. All of the heifers will be hard to part with, but Black Rust is going to be especially hard to let go.

Exposed April 1 to May 10 to Black Gold Advance 8D PG1178758. Observed bred April 6 and April 25. Preg checked safe to observed breeding.

Homo Polled. T33 Ms Highlight is a heifer that we feel has a lot of potential to do great things for her new owners. Every time we checked pastures this summer we were in awe over the amount of thickness she carries throughout her whole body. Udder quality should be outstanding as her mother's udder is flawless at 6 years of age. If disposition is high on your priority list she is definitely one to check out on sale day. On top of all of that she boasts a very strong set of EPDs. Don't miss the opportunity to make Ms Highlight your own on December 9th.

Exposed April 1 to May 10 to Black Gold Advance 8D PG1178758. Observed bred April 2. Preg checked safe to observed breeding.

Hetero Polled. T33 Ms Havanna is a blaze face, eye catching Denali daughter. The EPD profile of Denali has sure passed down to Havanna as you can tell she is above average in most columns. We do expect that she will mature to be a larger framed cow, which should produce heavier weights in her progeny. The mating with Advance is one that we are really excited about because of the chances of the calf having some white on its face is very high. After four years of calving to Advance, his progeny are an impressive combination of calving ease and performance.

Bred Apr 12 to SBV Reputation 707F P1276333. Preg tested safe. Exposed May 4 to June 16 to Fairview Theory 218H PT1325747.

Homo Polled. Full Fleckvieh. Non-Dilutor. Aurora is a deep sided, broad topped, attractive heifer we really like. She has the pedigree, pigment and power to leave her mark in her new herd. Her dam is a sister to our Philosophy bull who has been used in top fullblood herds across Canada. Her sire, Payroll, is a son of our Sering donor cow who has been a cornerstone of our Fleckvieh program. Our Payroll daughters have beautiful udders with small teats and ideal placement and Aurora looks to be setting up the same way. She is bred to the \$165,000 Reputation bull and there is a good chance of the calf being homo polled and heavy pigmented. Her dam had a Reputation heifer calf this year and she is a standout.

Bred Apr 19 to Fairview Sherman 61H PG1333828. Preg tested safe. Exposed May 4 to June 16 to Rendezvous Eclipse 366G BPG1293890.

Homo Polled. Non-Dilutor. We think this dark red Warrior daughter is very special and she is hard to part with. She is broody, deep bodied with lots of capacity and is setting up a beautiful udder just like her dam. We only got a couple daughters off Warrior the first year and have retained several more this fall as we are really high on them. Mated to Fairview Sherman, our powerful, red baldy, MRL Sleep Easy son, who was a high seller at our bull sale this spring. Her homo-polled calf will be exciting and there is a good chance it will be a baldy.

Hetero Polled. Hetero Black. Natasha is an impressive, long bodied daughter of our MRL Avenger herdsire. She is fancy, feminine and carries that flashy blaze face. Her dam is a daughter of our Redstream herdsire, who was known in our program for making powerful, easy keeping, excellent uddered females that know how to produce. It is always hard letting a black blaze one go but we feel this one will go on to do great things for her new owner. We were fortunate to use Sherman on a small group of cows and heifers this spring before we delivered him to his new owners. His calves will be exciting and imagine the possibilities if she delivers a black baldy calf in early January.

We absolutely love this State of War female and obviously having a hard time parting with her but we felt that, when deciding to showcase females this fall, we couldn't leave her out of the offering. Lady 51H is an extremely powerful, black, blaze face female with a wide top, excellent spring of rib and is a female that is straight in her lines. We appreciate how she strides out on her sturdy foot and is perfect in her movement when she's in motion. We truly feel that this female will add a ton of depth to her progeny and will add value as a donor female in any herd. She is a female that is stacked genetically with NCB Cobra 47Y, TNT Tanker U263 and Hooks Shear Force on the bottom side. Her grand dam has produced three top end females that have been retained in our herd. She is serviced by the up and coming Simmental sire to watch out for, LLW Card True North G71, who is owned by our great friends at Wheatland Cattle Company and Semex. We truly believe this mating will be extremely valuable to her new owners in the future.

**Bred March 23 to Wheatland Affinity 8196F PG1252370. Exposed April 12 to June 3 to Rainbowriver Rambler 43F PG1245503.**

Lady 45H is a cherry red, Springcreek Flash 139E daughter that we are having a hard time parting with as she clearly screams power, perfection and performance not only phenotypically but genetically as well. This powerful bred heifer is as flashy as she is deep and wide, you can't help but appreciate her bold spring of rib, strong topline and sturdy foot. Lady 45H is serviced by Wheatland Affinity 8196F, one of the most sought after red sons of the popular black sire CCLT Alliance. Affinity has an exceptional body build with an attractive look which will make this mating extremely valuable. We truly believe that Lady 45H is a sale feature you don't want to miss.

75% Fleckvieh. We don't usually offer Fullblood/Fleckvieh females but Lady 50H is a fancy, double goggled, polled LRX Rocket 23Y daughter that we feel will add some width and depth to her progeny. She is a female that is extremely docile and gentle in her nature along with having a wide topline and great depth within her middle. Her dam, Pheasantdale MS 111U, is a female that has an absolute perfect udder and teat placement which she has passed along to her daughter.

Bred April 1 to Boundary Strut 155G PG1275858 and exposed April 17 to June 17 to same. Preg checked safe to April 1 breeding.

Homo Polled. Carey 61H is an exceptional heifer that has a lot going for her. She has the deep red color that we strive for. She is an extremely long bodied, beef heifer that is designed to produce bulls. A sound made female that is dropping a square udder. Her dam, Carey 44D, was one of the feature bred heifers in 2017 when we purchased her at FNL. She has developed into a huge volume beef cow. The flush of Carey to Amber Jack produced all dark red, quality calves with a couple feature bulls in our sale and more full sibs to 61H retained in our herd. The mating to Boundary Strut should be an excellent cross. He has proven to calve very well.

Bred April 4 and 23 to WHL Red Heat 1734E PGT1254838. Preg checked safe.

Homo Polled. Karma is a moderate framed heifer that is very complete. She is a broody beef heifer that moves very well and has that popular white blaze. She is sired by a Red Deputy son that we used a bit here in our program but due to an injury we only got a few calves. His females appear to be excellent which is no surprise as the Deputy daughters we have are all good and he is out of our Hot Topic cow family. Karma's dam is a heavy milking, Red Rock daughter that has a full sister to 68H in the replacement pen.

This dark red, big bodied, very attractive female is going to be hard to see go. She just has that mother cow look and seems to be setting up a very nice udder, much like her dam 105B has. Many generations of our best maternal genetics stacked into the bottom side of this heifer's pedigree combined with the popular Roosevelt bull has produced a female that is very hard to pick a hole in. The 105B female has produced a high selling bred through Simmsational 2018 to Coulee Crossing.

Huge potential in this striking heifer calf. Her sire, IPU Cinch, is a direct Liner 56U son out of a Poker Face dam. Maternally how could you write it much better. We have a large sire group by him this year and are very happy with the results both male and female. The TSN 12A cow is a huge bodied, sound made female that has been one of our most consistent top producers since she was purchased from Tyson. 12A's production so far is highlighted by the X-T Debutante 10D female that was a very popular and top selling bred through the 50th anniversary sale at Agribition to LaBatte's. We believe Jewel 12J will become a foundation female for her new owner.

 WS OPTIMAL VISION S28  
 D BAR C GLORY 8112U

**Open.**

Dark red, deep sided and long bodied with style and presence. Sired by LFE Fortress 850F who was one of the leading red bulls from Lewis Farms in 2020. His first calf crop has impressed us in every way and he happens to be a maternal brother to the \$100,000 LFE Hallpass 851G that created quite a stir this past spring. This heifer's dam and granddam are both excellent uddered, good footed, feminine cows that year after year flat out produce. A proven cow family, impressive phenotype and an exciting pedigree make this a heifer one to build around.

A heifer that stood out all summer long and one that presents a tremendous opportunity. Incredible depth, rib shape and dimension in this heifer, all while staying very structurally correct and attractive through the front third. Sired by Landmark who was the high selling bull for Maxwells in 2020, purchased by Deeg Simmentals and Muirhead Cattle Co. We were given the opportunity to purchase a semen pack on this exciting up and coming bull and we jumped at the opportunity. Both bulls and females from Landmark stand at the top of the pen and are sure to make their mark. This heifer's dam and granddam have picture perfect udders and the presence and look that this heifer has is truly unique. This combination of a fresh pedigree with a flawless phenotype means the potential of this female is truly endless.

Welcome to Transon's Simmsational Sale.

2021 is my 50th year with Simmentals and to mark this milestone I am consigning my two best replacements in the herd. The herd is all polled, full Fleckvieh animals with many being homo polled. Health status is A,D and E at birth. Ivomectin, Covexin Plus and Bovi-Shield 6 in the fall. Please feel free to call me at home: 306 736-2304 or cell: 306 495-7217.

Looking forward to seeing you at the sale.

Bred to Bar PS Homo Pol Forward 8H P1332694. Ultrasound to a March 28th breeding.

Bar PS Homo Pol Lynea 3H is very correct in her conformation. She is bred to the homo polled bull Bar PS Homo Pol Forward 8H who is solid red in color. Lynea is setting up a very nice udder. Her mother's family is one of the foundation polled families of the breed.

## Notes

The Transcon team is available to anyone who cannot attend to confidentially appraise, bid and buy on your behalf. We always encourage buyers who may choose to bid online to call on us for a free appraisal of the cattle the day prior, or morning of the sale (please allow some lead time!) This simply takes the risk out of “shooting in the dark purchasing” and is a win/win for both buyer and seller’s satisfaction.

And of course we can handle your bidding requirements in your absence via phone or a confidentially agreed upon budget, that will only be used as needed. We only spend what’s necessary to own them and quite often we are able to make purchases under your maximum bid.

This service is conflict-free as we are not paid any buying incentive fees by the sellers and we are not active Simmental breeders. This service is also provided free of charge to all prospective buyers. Please call our cell phones for any assistance you may require.

## *Terms & Conditions*

**TERMS** - The terms of the sale are cash, cheque, e-transfer, or wire and are due at the time of sale, unless other arrangements have been made between buyer and seller prior to the sale. Transcon reserves the right to charge interest at a rate of 2% per month on overdue accounts. The right of property shall not pass until after settlement is made. Transcon Livestock Corp. reserves the right to require a certified cheque as settlement before releasing any sale cattle. Should any purchaser fail to settle for their purchase Transcon Livestock Corp. reserves full power to resell the animal to the best advantage either publicly or privately, without further notice. Any loss arising from such resale together with keep and all other expenses shall be payable by the defaulter. All settlements must be made with the clerks of the sale before any cattle will be released. Transcon Livestock Corp. and/or the Auctioneer shall have the right to refuse bids from anyone who has a previous record of default in payment or who has not made proper credit clearance prior to the sale with the owner or Sale Managers.

**BID** - No private sales will be allowed except as otherwise provided for in the terms and conditions. No by-bidding will be permitted.

**SALES TAXES** - Applicable sales taxes will be charged on semen, embryos, and trucking fees (if listed), respective to the home province of the buyer, not the seller.

**DISPUTES** - In cases of disputes, bidding will be reopened between the parties involved. If no further bid is made the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

**PURCHASER'S RISK** - Each animal becomes the risk of the purchaser as soon as sold. Animals will be cared for at the purchaser's risk for a reasonable length of time.

**INSURANCE** - Each animal becomes the risk of the purchaser at the time of sale and should be insured. Animals returning to the seller's farm must be insured.

**US BUYERS** - There is an additional charge (approximately \$300.00 US dollars) that will be applied to each animal purchased. This covers documentation, vet inspections/testing required to export. This cost does not include transportation or brokerage which is the responsibility of the buyer.

**CATTLE PICTURES AND INFORMATION PROVIDED** - The images in this catalogue are believed to be accurate representations of the individual animals and the information contained in this catalogue is provided by the seller and believed to be true and accurate. Transcon Livestock Corp. and catalogue designers/producers assume no responsibility if the images and/or information as received have been altered or is inaccurate.

**ANNOUNCEMENTS** - All announcements from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay attention to any such announcements.

**CERTIFICATE OF REGISTRY** - A registration/recording certificate issued by the applicable breed association and duly transferred will be furnished to the buyer of each animal after settlement has been made. It is the responsibility of the buyer to determine the acceptance of this certificate in any other association.

**SHIPPING** - Assistance will be given in making shipment after the sale but no risk is assumed by the Sales Management or Seller. Expenses incurred are the responsibility of the purchaser. Purchasers are requested to furnish shipping instructions when making settlement.

**BREEDERS GUARANTEE** - As per applicable Canadian Breed Association Breeding Guarantee guidelines. Copies are available at the sale settlement desk to be picked up by the buyer at any time. In no event shall the seller be responsible for reimbursing more than the purchase price. **EXCEPTION TO GUARANTEE** - In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, the guarantee shall be null and void.

**HEALTH** - It is the buyer's responsibility to determine health requirements for importing any animal into his province or state. Transcon Livestock Corp. assumes no responsibility for the health status of any animal in the sale.

**EMBRYO & SEMEN** - Full settlement must be made before release is done and shipping arrangements should be done within 30 days of the sale unless arrangements made between buyer and seller prior to the sale. Shipping arrangements and costs are the expense of the purchaser once release has been given.

**ACCIDENTS** - Although every precaution will be taken to protect the safety and comfort of buyers, neither the Sales Management, auctioneer, consignors, or Association assumes any responsibility in this matter and disclaims any liability legal or otherwise in the event of accident or loss of property.

**RIGHTS AND OBLIGATIONS** - The above terms and conditions of the sale shall constitute a contract between the buyer and the seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.

**TRANSCON LIVESTOCK CORP. IS AGENT ONLY** - It is to be clearly understood that Transcon Livestock Corp. is only acting as a medium between buyer and seller and is not in any way responsible for any failure on the part of either party to live up to his obligations. Neither does Transcon Livestock Corp. assume any financial obligations to collect or enforce collection of any monies between parties. Any legal action that may be taken, in exceptional cases, must be between buyer and seller.
